

**HEALTH SERVICES AND DEVELOPMENT AGENCY MEETING
JUNE 25, 2014
APPLICATION SUMMARY**

NAME OF PROJECT: The Health Center of Hermitage

PROJECT NUMBER: CN1404-011

ADDRESS: 4214 Central Pike
Hermitage (Davidson County), Tennessee 37076

LEGAL OWNER: The Health Center of Hermitage, LLC
100 Vine Street
Murfreesboro, TN (Rutherford County), TN 37130

OPERATING ENTITY: Not applicable

CONTACT PERSON: Bruce K. Duncan
(615) 890-2020

DATE FILED: April 15, 2014

PROJECT COST: \$19,241,697.00

FINANCING: Cash Reserves

REASON FOR FILING: The change of site/relocation for an approved but unimplemented Certificate of Need, CN1306-022A, for a 90 bed nursing home to a new site in the same county (Davidson) approximately 5 miles from its original approved location in Nashville. ***The project is not subject to the 125 bed Nursing Home Bed Pool for the July 2013 to June 2014 state fiscal year period.***

DESCRIPTION:

The Health Center of Hermitage, LLC, a subsidiary of National HealthCare Corporation (NHC), is seeking approval on the Agency's ***Consent Calendar*** to relocate the 90 bed nursing home approved at the September 25, 2013 Agency meeting in its unimplemented Certificate of Need, CN1306-022A. If approved, the location of the nursing facility will change from the original unaddressed 13 acre site at Bell Road near Woodland Point Road and Couchville Pike in Nashville, Davidson County (approximately 2 miles east of Nashville International Airport), to a new site containing approximately 14.02 acres at

4214 Central Pike, Hermitage, Davidson County, Tennessee. The project is not subject to the 125-bed Nursing Home Bed Pool for the 2013-2014 state fiscal year period.

SERVICE SPECIFIC CRITERIA AND STANDARD REVIEW:

**CONSTRUCTION, RENOVATION, EXPANSION, AND REPLACEMENT
OF
HEALTH CARE INSTITUTIONS**

1. Any project that includes the addition of beds, services, or medical equipment will be reviewed under the standards for those specific activities.

Not applicable, there are no additional beds requested from the 90 beds approved in CN1306-022A.

2. For relocation or replacement of an existing licensed health care institution:
 - a. The applicant should provide plans which include costs for both renovation and relocation, demonstrating the strengths and weaknesses of each alternative.

The applicant requests a change of location for primary reasons regarding site development and land acquisition cost savings as well as increased efficiency for the building layout of the new 90 bed nursing home originally approved in CN1306-022A. Estimated savings are approximately \$1.2 million.

The applicant appears to meet this criterion.

The applicant should demonstrate that there is an acceptable existing or projected future demand for the proposed project

Other than the change in location of approximately 5 miles within the same county/ service area, the applicant demonstrated the future demand for the project with letters of support from the medical and business community, both in CN1306-022A and this application. The applicant maintains that the nursing home is needed at the proposed new location to meet the need for efficient and effective long term care services in Davidson County.

The applicant appears to meet this criterion.

3. For renovation or expansions of an existing licensed health care institution:

- a. The applicant should demonstrate that there is an acceptable existing demand for the proposed project.
- b. The applicant should demonstrate that the existing physical plant's condition warrants major renovation or expansion.

Not applicable, the project is for the relocation of unconstructed beds granted by CN1306-022A.

STAFF SUMMARY

Note to Agency members: This staff summary is a synopsis of the original application and supplemental responses submitted by the applicant. Any HSDA Staff comments will be presented as a "Note to Agency members" in bold italics.

The Health Center of Hermitage proposes to relocate and open a 90 bed Medicare-certified skilled nursing home from the location approved in unimplemented CN1306-022A near Bell Road and Couchville Pike to Hermitage. According to MapQuest, the current location is approximately 2 miles due east of the Nashville International Airport while the distance to the proposed site in Hermitage is approximately 5 miles using Bell Road (north) then I-40 East as the route of travel. A map of the current location and proposed location is located on page 9 of the April 25, 2014 supplemental response.

This project has a history that began in 2010 and is detailed below:

Historical Information:

- Pursuant to Tennessee Code Annotated, §68-11-1628, McKendree Village was able to relocate 150 of its then 300 bed nursing home to a new site in Davidson County. McKendree Village worked with NHC through this transition. NHC received approval through CN1002-007A at the May 26, 2010 Agency meeting to relocate 150 of McKendree Village's 300 licensed beds, establish a new institution (The Health Center of Nashville, LLC) and construct a new 150 bed replacement facility within McKendree Village's market area at 2816 Old Hickory Boulevard, Nashville (Davidson County) approximately 28 miles southwest of McKendree Village. McKendree Village relinquished 150 licensed nursing home beds. Seventy-five (75) of the 150 beds would be dually certified for Medicare and Medicaid while the remaining 75 would be Medicaid only. The bed configuration included 38 beds in private rooms, 82 beds in 41 companion rooms (private rooms sharing a bathroom), and 30 beds in 15 semi-private rooms.
- NHC received approval at the September 28, 2011 Agency meeting in CN1107-024A to change the location of unimplemented CN1002-007A due to the unforeseen cost associated with site soil removal and stabilization, grading, rock

The Health Center of Hermitage

CN1404-011

June 25, 2014

PAGE 3

removal and the construction of retaining walls from 2816 Old Hickory Boulevard, Nashville to the southeast quadrant of Highway 100 and Pasquo Road, a distance of approximately 4 miles. There was no change in Medicare and Medicaid certification or bed configuration from the previously approved CN1002-007A.

- Pursuant to § TCA 68-11-1631, which allows select nursing homes to partially relocate from an approved but unimplemented Certificate of Need location to a new location, The Health Center of Hermitage, LLC, a subsidiary of National HealthCare Corporation (NHC), filed CN1306-022, which was approved by the Agency at its October 23, 2013 meeting. The application was for the relocation of 60 of the 150 nursing home beds approved but unimplemented from Certificate of Need, CN1107-024A (The Health Center of Nashville, LLC) and for the addition of 30 new Medicare-certified skilled nursing beds. The 90 beds were to be located at an undeveloped site in the Hermitage area of Davidson County. The property does not have an address but is located along Bell Road approximately 2 miles south of Interstate 40. This site is approximately 29 miles east of The Health Center of Nashville location. In addition to the reduction of beds, the certification and bed configuration changed to all 90 beds being Medicare-skilled only with 72 beds in private rooms, 8 beds in 4 companion rooms, and 10 beds in 5 semi-private rooms.
- The proposed project currently under consideration by the Agency, CN1404-011, The Health Center of Hermitage is seeking approval to relocate from the approved Bell Road site to approximately a 14 acre site on 41214 Central Pike in Hermitage (Davidson County, a distance of approximately 5 miles. All 90 beds will be certified as Medicare-skilled only with 76 beds in private rooms, 2 beds in bariatric private rooms, and 12 beds in 6 companion rooms.

The applicant maintains that the change in location will provide better cost and site engineering factors, more efficient building layout at lower acquisition & development costs and will be closer to its primary hospital referral source, Summit Medical Center in Hermitage. These benefits associated with the project plus others can be found in Section B, Project Description, pages 5-8 and in the response to the Access to Care principle of the State Health Plan on page 15 of the application. Another immediate advantage is anticipated with the increase in the supply of Medicare certified beds to enhance admission of area residents needing post-acute, skilled nursing and rehabilitation services. The new location will further complement the applicant's referral relationship with Summit Medical Center in light of the agreement between NHC and Tri-Star Hospitals to coordinate care for patients in the post-acute care setting. As highlighted in CN1306-022A, the agreement focuses on the transition of patients between care settings to reduce the number of discharged patients who are readmitted to hospitals within 30 days of discharge. As evidence of the support for the project and its positive impact on the community, the applicant provided letters of support in the April 25, 2014 supplemental response from hospital executives, physicians and state legislators.

The Health Center of Hermitage

CN1404-011

June 25, 2014

PAGE 4

Ownership

The Health Center of Hermitage, LLC is a limited liability company (LLC) formed in June 2010 which has one (1) member, NHC/OP, L.P. NHC/OP, L.P. owns 100% of The Health Center of Hermitage, LLC. NHC/OP, L.P. is owned 99% by National HealthCare Corporation and 1% by the limited partnership's general partner, NHC/Delaware, Inc. National HealthCare Corporation owns 100% of NHC/Delaware, Inc. NHC/OP, L.P. also owns 100% in numerous nursing facilities, assisted living, homes for the aged and home health care organizations in seven southeastern states. Twenty-four (24) of the nursing homes are located within Tennessee.

Facility Information

The proposed single story facility will consist of 73,699 square feet, including a freestanding 1,000 square foot maintenance building. The center will consist of 76 private rooms, 6 companion rooms/private rooms with shared baths, and 2 bariatric/private rooms and physical, speech and occupational therapy suites.

Service Area Demographics

The Health Center of Hermitage's declared service area is Davidson County.

- The total population of the service area is estimated at 656,385 residents in calendar year (CY) 2014 increasing by approximately 2% to 669,733 residents in CY 2016.
- The overall statewide population is projected to grow by 1.85% from 2014 to 2016.
- The 65 and older population will increase from 74,375 residents in CY2014 to 79,897 residents or 11.9% of the general population in CY2016. The statewide 65 and older population is expected to reach approximately 15.4% of the general population CY2016.
- The proportion of TennCare enrollees of the total county population in CY2014 is 18.4%, compared with the state-wide average of 17.9%.

Sources: Tennessee Department of Health, Division of Policy, Planning and Assessment, Office of Health Statistics, U.S. Census Bureau, Bureau of TennCare.

Using population and nursing home licensed bed data from the Tennessee Department of Health, the applicant provided the information displayed in the table below to help illustrate the need to change location of the new 90 bed facility first approved in CN1306-022A (unimplemented) based on access to Medicare beds in the service area. This is compared to the applicant's 90 bed "sister" facility (related through common ownership by NHC) as approved in The Health Center of Nashville, CN1107-024AME and other

area nursing homes located in Davidson County within a 10-mile radius of the proposed facility in Hermitage.

65+ Nursing Home Beds/1,000 Population Within a 10-Mile Radius

Location	Year 1 (2017) Population	2017 age 65+ population	2014 total nursing home beds within 10 mile radius	2017 Medicare SNF and dually certified beds within 10 mile radius	2017 nursing home beds per 1,000 age 65+ population	2017 Medicare SNF and dually cert beds per 1,000 age 65+ population
CN1404-011, Health Center of Hermitage	296,197	42,722	774	485	18	11 per 1,000
CN1107-024AME, Health Center of Nashville	408,918	48,019	1,160	860	24	18 per 1,000
Davidson County	676,131	82,728	3,010	2,032	36	25 per 1,000

Source: page 20, April 25, 2014 supplemental response

- The table above reflects that there are less nursing home beds and specifically less Medicare/Medicaid certified beds in the Hermitage/eastern Davidson County area than in the West Nashville area (the location of the Health Center of Nashville from which 60 of the 90 beds for this proposed project were relocated) and Davidson County overall.

Historical Utilization

There were 3,025 licensed nursing home beds in Davidson County at the time CN1306-022A was originally reviewed & approved by the Agency in September 2013 increasing to a total inventory of 3,205 Nursing Facility beds with the addition of CN1107-024AME and CN1202-0101A (these CONs accounted for 180 unimplemented and approved CON nursing facility beds in September 2013).

According to the Division of Health Facilities, Davidson County currently has 3,010 licensed beds in 23 nursing homes, including 3 new nursing homes licensed between October 2011 and January 2013 by the Tennessee Department of Health. The total bed inventory in the county increases to 3,130 beds in light of the current number of outstanding/ unimplemented Certificate of Need beds approved in (a) The Health Center of Nashville, LLC, CN1107-024AM, (90 beds) and (b) McKendree Village, CN1202-010A (30 beds). The utilization of the 23 nursing homes is displayed in the table that follows.

The Health Center of Hermitage

CN1404-011

June 25, 2014

PAGE 7

The utilization table reflects the following:

- There was a 3.5% decrease in total patient days in Davidson County from 848,609 in 2010 to 818,964 in 2012. The nursing home bed occupancy rate decreased from 88% to 84% during the 3-year period.
- Twenty-one (21) of 23 nursing home facilities in Davidson County have more than 50 licensed beds, one of which (Jackson Park Christian Home) did not submit a 2012 Joint Annual Report (JAR) to TDH. There were 4 nursing homes that attained an occupancy rate in excess of 95%.

However, please note the following:

- There appears to be JAR reporting outliers in 2012 with Jackson Park Christian Home (no JAR submitted to TDH for 2012) and The Meadows Nursing Homes (occupancy reported in 2012 JAR was in excess of 100%).
- The table does not include the utilization for Life Care of Hickory Woods (124 beds) prior to 2012, which was licensed on October 25, 2011 and no utilization for Signature Healthcare of Nashville Rehabilitation & Wellness Center (119 beds) licensed on January 17, 2013.

The inventory and utilization by bed classification for Davidson County nursing homes is provided on pages 72 - 74 of the application. Please note the table below:

Inventory & Ave. Daily Census of Davidson Co. Nursing

Homes, 2012 and 2011

Year	Licensed Beds	*Medicare -certified beds	SNF MCARE ADC	MCAID Level2 ADC	SNF All Other Payors ADC	MCAID Level1 ADC	Non-skilled All Other Payors ADC	Total ADC	Lic. Occup.
2012	2,630	1,728	345	149	192	1,178	349	2,212	84.1%
2011	2,493	1,641	340	105	61	1,222	465	2,193	87.9%

* Includes dually-certified beds

Information for the most recent reporting period (2012) indicates the following:

- Medicare Skilled ADC was 345 or 13.1% of all licensed beds
- Medicaid Skilled ADC was 149 or 5.7% of all licensed beds
- Other Payor Skilled ADC was 192 or 7.3% of licensed beds

Projected Utilization

The table below highlights the projected utilization in the first two years of the project. The applicant estimates that the licensed occupancy will increase from 26.6 % in 2017 to 78.6% in 2018. The applicant expects a projected patient mix of 21 Medicare skilled patients, 18 other skilled patients, and 36 non-skilled patients in 2018.

The Health Center of Hermitage

CN1404-011

June 25, 2014

PAGE 8

The Health Center of Hermitage Projected Utilization

Year	Licensed Beds	*Medicare-certified beds	SNF Medicare ADC	SNF Medicaid ADC	SNF All other Payors ADC	Non-Skilled ADC	Total ADC	Licensed Occupancy
2017	90	90	7.0	0	5.0	12.0	23.99	26.6%
2018	90	90	20.7	0	17.7	35.4	70.76	78.6%

* Includes dually-certified beds

Utilization is projected to increase as a result of the following:

- Demand for Medicare certified beds (see ratio of existing Medicare beds to age 65 population provided on page 6 of this summary)
- NHC relationship with Tri-Star Hospital Summit
- Close ties with Downtown Nashville Hospitals
- Community ties with area churches and several hospice companies
- Longstanding relationships with independent living and assisted living facilities within a 10-15 miles radius of the proposed location
- The location of the proposed site to Interstate 40

Project Cost

Major costs of the \$19,241,697 total estimated project cost are:

- Construction- \$12,862,80000 or 67% of total cost
- Preparation of Site- \$1,491,000 or 7.8% of total cost
- Acquisition of Site- \$800,300 or 7.6% of total cost

For other details on Project Cost, see the Project Cost Chart on page 114 of the application

The construction cost is \$172.14 per square foot (SF). As reflected in the table below, the construction cost is between the median of \$167.31 per square foot and the 3rd quartile of \$181.72 per square foot of statewide nursing home construction projects from 2010 to 2012. The construction cost for this project is similar to the \$170/SF construction cost projected for Health Center of Hermitage, LLC, CN1306-022A, exclusive of site development, equipment and other soft costs. Please note the table displayed below:

The Health Center of Hermitage

CN1404-011

June 25, 2014

PAGE 9

**Statewide
Nursing Home Construction Cost Per Square Foot
Years 2010-2012**

	Renovated Construction	New Construction	Total construction
1st Quartile	\$19.30/sq. ft.	\$164.57/sq. ft.	\$73.23/sq. ft.
Median	\$35.76/sq. ft.	\$167.31/sq. ft.	\$166.57/sq. ft.
3rd Quartile	\$55.00/sq. ft.	\$181.72/sq. ft.	\$167.61/sq. ft.

Source: HSDA Applicant's Toolbox

A letter dated April 11, 2014 from the architectural firm Johnson and Bailey Architects, P.C. indicates the proposed nursing home will be constructed to comply with all applicable building and life safety codes and to the requirements specified in the latest editions of the Guidelines for the Design and Construction of Health Care Facilities.

Historical Data Chart

Not applicable. The application is for a new nursing home.

Projected Data Chart

The applicant projects \$4,722,841.00 in total gross revenue on 8,749 patient days during the first year of operation and \$14,580,783 on 25,815 patient days in Year Two (approximately \$565.00 per day). The Projected Data Chart reflects the following:

- Net operating income less capital expenditures for the applicant will equal (\$2,128,498) in Year One increasing to \$101,281 in Year Two.
- Deductions from operating revenue for bad debt, charity care, and contractual adjustments are estimated at \$4,270,753 or approximately 29.3% of total gross revenue in Year Two.
- Charity care at approximately .04% of total gross revenue in Year One and in Year Two equaling to \$2,133 and \$6,434, respectively.
- Charity Care calculates to 4 days in Year One

Charges

Summarizing from page 36 of the application, the average patient daily charges are as follows:

- The proposed average gross per diem charge is \$541.05/day in Year 1 increasing to \$564.82 in Year 2.
- After deductions from gross operating revenue (average of \$159 per day), the average net charge increases from \$387/day in Year 1 to \$399.38/day in Year 2.

Medicare/TennCare Payor Mix

- Medicare- Charges will equal \$1,258,389 in Year One representing 37% of total gross revenue
- Medicare Part B- Charges will equal \$24,065 in Year One representing 0.73% of total gross revenue
- The applicant does not plan to seek participation in TennCare/Medicaid.

Financing

An April 10, 2014 letter from Donald K. Daniel, NHC Senior Vice President and Controller confirms the availability of cash reserves and cash equivalents in the amount of \$81,000,000 or greater to fund the \$19,241,697 proposed project.

NHC's unaudited financial statements for the period ending December 31, 2013 indicates \$81,705,000 in cash and cash equivalents, total current assets of \$436,928,000, total current liabilities of \$250,359,000 and a current ratio of 1.75 to 1.

Note: current ratio is a measure of liquidity and is the ratio of current assets to current liabilities which measures the ability of an entity to cover its current liabilities with its existing current assets. A ratio of 1:1 would be required to have the minimum amount of assets needed to cover current liabilities.

Staffing

The applicant's proposed direct patient care staffing in Year Two totals to approximately 52.2 full time equivalents (FTE) 63% of the 83.20 total facility staff budgeted for the 90-bed nursing home. Direct patient care staff includes the following:

- 8.40 FTE Registered Nurses and
- 5.60 FTE LPN's and
- 32.20 FTE Aides and
- 1.0 FTE Director of Nursing and
- 1.0 FTE Associate Director of Nursing and
- 1.0 FTE Activities Dept. Head and
- 1.0 Social Services Dept. Head and
- 2.0 FTE Social Services Staff

Licensure/Accreditation

The Health Center of Hermitage will be licensed by the State of Tennessee and certified by Medicare.

Corporate documentation, real estate lease, and detailed demographic information are on file at the Agency office and will be available at the Agency meeting.

Should the Agency vote to approve this project, the CON would expire in **two** years.

The Health Center of Hermitage

CN1404-011

June 25, 2014

PAGE 11

CERTIFICATE OF NEED INFORMATION FOR THE APPLICANT

There are no other Letters of Intent, denied or pending applications, or outstanding Certificates of Need for this applicant.

National Healthcare Corporation, LLC has a financial interest in this project and the following:

Outstanding Certificates of Need:

NHC/Maury Regional Transitional Care Center, CN1307-025, has an outstanding certificate of need that will expire on December 1, 2015. The CON was approved at the October 23, 2013 Agency meeting for the relocation and replacement of two (2) separately licensed nursing home facilities; NHC Healthcare Hillview and Maury Regional Hospital Skilled Nursing Unit, into one new center with a total of 112 beds. The estimated project cost is **\$18,161,272**. *Project Status: according to an update from a management representative of NHC on 6/2/14, the project is in progress. NHC has rezoned property for CON project, completed all site due diligence activities and has closed on the site. Project construction plans are underway.*

NHC at Indian Path, LLC, CN1212-059A, has an outstanding certificate of need that will expire on July 1, 2015. The CON was approved at the May 22, 2013 Agency meeting for the replacement and relocation of the twenty-two (22) bed Indian Path Medical Center Transitional Care Unit and the addition of thirty (30) new Medicare certified skilled nursing home beds. The facility will relocate from Indian Path Medical Center at 2000 Brookside Drive to 2300 Pavilion Drive, Kingsport (Sullivan County), TN. The new facility will be licensed as NHC at Indian Path and will contain fifty-two (52) Medicare-only (skilled) nursing home beds. The estimated project cost is **\$10,385,615.00**. *Project Status: according to an update from a management representative of NHC on 4/25/14, the construction phase of the project is in progress.*

The Health Center of Nashville, LLC, CN1107-024AM, has an outstanding certificate of need that will expire on November 1, 2014. The CON was approved at the September 28, 2011 Agency meeting for the change of site and relocation of CN1002-007A for the construction of a 150 bed nursing home from 2816 Old Hickory Boulevard, Nashville (Davidson County), TN to an unaddressed site at the intersection of HWY 100 and Pasquo Road, Nashville (Davidson County), TN. The distance from the previously approved site to the new site is 4.1 miles or nine (9) minutes travel time. The applicant proposes to certify 75 of the beds as Medicaid only and 75 beds as dually certified Medicaid/Medicare. The estimated project cost is **\$23,894,100.00**. *Project Status: This applicant filed a request to modify this CON and received Agency approval as a General Counsel's Report item at the September 25, 2013 Agency meeting. The request was for*

The Health Center of Hermitage

CN1404-011

June 25, 2014

PAGE 12

an eighteen (18) month extension of the expiration date from November 1, 2014 to May 1, 2016 and upon approval of CN1306-022, for project modifications of CN1107-024A by the following: 1) reduction of the 150 approved beds to 90 beds (all to be private rooms not 38 private, 41 companion suites and 15 semi-private); 2) decrease the project cost by \$2,381,950 from \$23,894,100 to \$21,512,150; 3) increase the therapy gym to support the post-acute rehabilitation services by 2,500 SF from 2,300 SF to 4,800 SF; and 4) to include 3,400 SF of shelled space for potential future growth. Per an update received on 4/25/2014, architectural drawings and construction plans are 98% complete with site work expected to start in the next 60 to 90 days. The applicant has also requested a further modification to the project to eliminate over 6,000 square feet of of shelled space and associated connective space to be heard as a General Counsel's Report item at the June 25, 2014 Agency meeting.

NHC Healthcare–Sumner, LLC, CN1108-029, has an outstanding certificate of need that will expire on December 1, 2014. The CON was approved at the October 26, 2011 Agency meeting for the relocation of two previously approved Certificate of Need projects for 1) a sixty-two (62) bed Medicare certified nursing home project issued as CN0702-014AE and 2) the addition of thirty (30) new Medicare certified nursing home beds granted as CN0808-057AE for a project total of ninety-two (92) bed nursing home located on Nashville Pike (Hwy 31E) near Kennesaw Blvd.(on Parcels 22.01 and 24.04 on Sumner County Property tax Map 1.36, Gallatin, TN 37066). The ninety-two (92) beds will be certified as Medicare–only nursing home beds. The estimated project cost is **\$17,902,991.00**. *Project Status: A status report submitted on April 25, 2014 advised that site preparation has been completed and the facility is under construction.*

CERTIFICATE OF NEED INFORMATION FOR OTHER SERVICE AREA FACILITIES:

There are no Letters of Intent, denied applications, or pending applications for other health care organizations in the service area proposing this type of service.

Outstanding Certificates of Need

LP Nashville II, LLC, CN1304-012, has an outstanding Certificate of Need, which will expire August 1, 2015. The CON was heard at the June 26, 2013 Agency meeting for the cost overrun of \$4,010,000 of previously approved CON CN1009-044A due to the complications associated with implementing the CON. The project cost increased from \$13,360,741 to \$17,370,741. The estimated project cost is **\$4,010,000.00**. *Project Status: According to the written confirmation from the contractor submitted with the Annual Progress Report submitted on 5/21/14, the project has been completed.*

McKendree Village, CN1303-007, has an outstanding Certificate of Need, which will expire on August 1, 2015. The CON was heard at the June 26, 2013 Agency meeting for

The Health Center of Hermitage

CN1404-011

June 25, 2014

PAGE 13

the renovation, construction, and partial repositioning of fifty (50) existing dually certified nursing home beds in addition to the modification of CN1202-010A approved for thirty (30) dually certified nursing home beds. The nursing home's licensed bed complement of one hundred eighty (180) beds after implementation of CN1202-010A will not change. The estimated project cost is **\$3,808,150.00**. *Project Status: The project was recently approved. Project Status: per update provided on 6/9/14 by a representative of Nashville Senior Care, LLC d/b/a McKendree Village, architectural and construction plans were completed in late January 2014 and submitted to Metro and related State agencies. Architects have received their comments and are presently updating the drawings and plans. In addition, pricing by the contractor is underway but not complete.*

McKendree Village, CN1202-010AE, has an outstanding Certificate of Need, which will expire on **August 1, 2015 (as extended at Agency meeting on 11/20/13)**. The CON was approved at the May 23, 2012 Agency meeting for the addition of 30 Medicare skilled beds to its 150 bed nursing home, resulting in a 180 bed nursing home in which all beds will be dually certified for Medicare and Medicaid. The additional 30 private nursing home beds will be located in 16,000 square feet on the upper level of an existing wing of the facility known as 2-North. This area formerly housed 50 beds in 20 private rooms and 15 dual-occupancy rooms. The estimated project cost is **\$1,303,000.00**. *Project Status: The applicant received approval at the 11/20/13 Agency meeting to extend the expiration date one year from 7/1/2014 to 8/1/2015 to match the 8/1/2014 expiration date approved in McKendree Village, CN1303-007A. Please see project status update provided on June 9, 2014 for CN1303-007A for a description of the progress by the architects and contractor on this project.*

PLEASE REFER TO THE REPORT BY THE DEPARTMENT OF HEALTH, DIVISION OF HEALTH STATISTICS, FOR A DETAILED ANALYSIS OF THE STATUTORY CRITERIA OF NEED, ECONOMIC FEASIBILITY, AND CONTRIBUTION TO THE ORDERLY DEVELOPMENT OF HEALTH CARE IN THE AREA FOR THIS PROJECT. THAT REPORT IS ATTACHED TO THIS SUMMARY IMMEDIATELY FOLLOWING THE COLOR DIVIDER PAGE.

LETTER OF INTENT

2014 APR 10 PM 4:05

LETTER OF INTENT TENNESSEE HEALTH SERVICES AND DEVELOPMENT AGENCY

The Publication of Intent is to be published in the Tennessean which is a newspaper
(Name of Newspaper)
of general circulation in Davidson, Tennessee, on or before April 10, 2014,
(County) (Month / day) (Year)
for one day.

=====

This is to provide official notice to the Health Services and Development Agency and all interested parties, in accordance with T.C.A. § 68-11-1601 *et seq.*, and the Rules of the Health Services and Development Agency, that:

The Health Center of Hermitage Nursing Home
(Name of Applicant) (Facility Type-Existing)

owned by: The Health Center of Hermitage, LLC with an ownership type of Limited Liability Company
and to be managed by: The Health Center of Hermitage, LLC intends to file an application for a Certificate of Need
for: Change of Site/Relocation of 90 Bed's approved by CN1306-22A from the original site located along Bell Road approximately 2 miles south of its intersection with I-40. The undeveloped property does not have an address. Its location is on the west side of Bell Road approximately 436 yards south of Woodland Point Drive and 600 yards north of Couchville Pike. The site is 13 acres with 650 feet of frontage in Nashville, (Davidson County), Tennessee. The new proposed site is located on approximately 14.02 acres (shown as Tax Parcel 89.00 on tax Map 087) at 4214 Central Pike, Hermitage, Davidson Country Tennessee. The project, The Health Center of Hermitage, is to be certified for the Medicare participation. The project is not requesting any additional Nursing Home Beds. The estimated project cost is projected to be \$19,198,500.

The anticipated date of filing the application is: April 15, 2014

The contact person for this project is Bruce K. Duncan Assistant Vice President
(Contact Name) (Title)

who may be reached at: National HealthCare Corporation 100 Vine, Street, 12th Floor

RE: CON Request by the Health Center of Hermitage, LLC for a change of site for CN1306-22A, a to be constructed 90 bed nursing home with a proposed new location of 4214 Central Pike, Hermitage, Davidson County, Tennessee

Dear Ms. Hill:

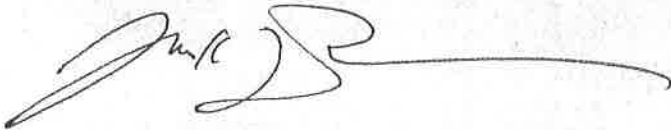

Enclosed please find the required check of \$43,196.63 made payable to the Health Services and Development Agency, to cover the filing fee for the referenced request. The fee has been calculated based on the total project cost of \$19,198,500/1,000 times \$2.25 which equals \$43,196.63, but in no case shall the fee be less than \$3,000.00 or more than \$45,000.00.

Due to the nature of the enclosed Certificate of Need request, we would like to request the director's consideration be given to placing the referenced CON on the HSDA's consent calendar.

If you require any additional information or need clarification on any of the supplied material, please do not hesitate to contact me at 615-890-2020.

Sincerely,

NATIONAL HEALTHCARE CORPORATION

Bruce K. Duncan
Assistant Vice President, Planning/Licensure & **Authorized Representative for The Health Center of Hermitage, LLC**

NOTE: *Section B* is intended to give the applicant an opportunity to describe the project and to discuss the need that the applicant sees for the project. *Section C* addresses how the project relates to the Certificate of Need criteria of Need, Economic Feasibility, and the Contribution to the Orderly Development of Health Care. Discussions on how the application relates to the criteria should not take place in this section unless otherwise specified.

SECTION B: PROJECT DESCRIPTION

Please answer all questions on 8 1/2" x 11" white paper, clearly typed and spaced, identified correctly and in the correct sequence. In answering, please type the question and the response. All exhibits and tables must be attached to the end of the application in correct sequence identifying the questions(s) to which they refer. If a particular question does not apply to your project, indicate "Not Applicable (NA)" after that question.

- I. Provide a brief executive summary of the project not to exceed two pages. Topics to be included in the executive summary are a brief description of proposed services and equipment, ownership structure, service area, need, existing resources, project cost, funding, financial feasibility and staffing.**

Proposed Services & Equipment: Change of Site/Relocation of 90 beds approved by CN1306-022A. The project is known as The Health Center of Hermitage.

Ownership Structure: The Health Center of Hermitage, LLC (Limited Liability Company)

Service Area: Davidson County

Need: Not Applicable, CON is for a change of site of a previously approved project.

Existing Resources: Change of Site/Relocation of 90 beds authorized by CN1306-022A. NHC has extensive operating experience in Davidson County, Nashville since 1975, and will use that resource to help staff and attract patients.

Project Cost: \$19,241,697

Funding: The project will be funded along with working capital, from NHC's cash on hand.

Financial Feasibility: The Projected Data Chart demonstrates the project is financially feasible by year two with positive net operating income less capital expenditures.

Staffing:
5.31 Direct Hours of Nursing per day (Year 1)
4.04 Direct Hours of Nursing per day (Year 2)

- II. Provide a detailed narrative of the project by addressing the following items as they relate to the proposal.

- A. Describe the construction, modification and/or renovation of the facility (exclusive of major medical equipment covered by T.C.A. § 68-11-1601 et seq.) including square footage, major operational areas, room configuration, etc. Applicants with hospital projects (construction cost in excess of \$5 million) and other facility projects (construction cost in excess of \$2 million) should complete the Square Footage and Cost per Square Footage Chart. Utilizing the attached Chart, applicants with hospital projects should complete Parts A.-E. by identifying as applicable nursing units, ancillary areas, and support areas affected by this project. Provide the location of the unit/service within the existing facility along with current square footage, where, if any, the unit/service will relocate temporarily during construction and renovation, and then the location of the unit/service with proposed square footage. The total cost per square foot should provide a breakout between new construction and renovation cost per square foot. Other facility projects need only complete Parts B.-E. Please also discuss and justify the cost per square foot for this project. If the project involves none of the above, describe the development of the proposal.

The Health Center of Hermitage, LLC ("NHC") is applying for a Certificate of Need ("CON") to relocate its 90 nursing home bed CN1306-22A. **Please see the attached CN1306-22A included in the Attachment "Section III, Contribution of Orderly Development – 7b" on page 164 at the end of the application.**

The new proposed site is approximately 14.02 acres (shown as Tax Parcel 89.00 on tax Map 087) located at 4214 Central Pike, Hermitage, Davidson County, Tennessee.

We are requesting that the Agency approve a site change for the subject CON for a number of reasons. In summary, we are changing sites because of cost and engineering challenges at the Bell Road site. The proposed Central Pike site is a better location, allows more efficient building layouts, and is less expensive to purchase and develop.

Key points are:

Location- The proposed location along Central Pike is a better location because of its proximity to Summit Hospital (2 minute drive vs. 9 min from Bell Road).

Engineering- The original Bell Road site has been determined to offers significant engineering challenges. The Bell Road site is situated approximately 45-50 feet above Bell Road. This would require a 600 ft driveway with a 7% grade. Visitors will enter the Central Pike site at grade. This provides a much better entrance for our elderly population.

In addition, the original Bell Road site would require substantial grading. Our engineering studies indicated that NHC would have to blast 100,000 cy of rock and export 74,500 cy. Blasting and haul off would add \$856,000 to the budget. The Central Pike site, while it evidences substantial rock in the subsurface, can be a balanced site. A rock premium will be included in the construction estimates.

The Bell Road site's topographical changes are significant. This factor and its tight dimensions would require substantial retaining walls. Estimates of retaining wall costs are in the \$545,000 range.

All in all, the cumulative engineering challenges for the Bell Road site would add \$1.0 million to the project's final cost.

*Price-*The Central Pike site is less expensive than the Bell Road original site. Our new contract purchase price is \$78,571/ac compared to \$150,000/ac for the Bell Road site. This site has better dimensions for the project as well. The subject 90 Bed health care center can be sited on 10 acres at Central Pike compared to 13 acres for Bell Road. The Central Pike

The new nursing facility will be a single story structure which has been designed to meet all current Life Safety Codes. The center will contain 73,699 square feet and have many ancillary patient areas for center operations such as kitchen, therapy suite for physical, speech and occupational therapies, laundry and administrative offices. The center will have 74 private rooms, and 6 companion rooms/private rooms with shared baths. The center will also include dining and activity rooms and central bathing. Full ancillary areas to be constructed include Physical, Speech, Occupational Therapy, Laundry, Activity rooms and Dining Rooms and administrative offices. The center has been designed to provide state of the art care in a comfortable environment.

The Health Center of Hermitage should be granted the relocation CON for the following reasons: NHC has a long history of providing quality long term care services in Davidson County. The relocation of the 90 beds approved by CN1306-22A will help local residents in need of post-acute care services find them. The project is financial feasible (see proforma projections), and lastly, it promotes the orderly development of the existing health care system in that it relocates existing approved beds to an area of need without adding new beds and capacity to the county and service area. The Health Center of Hermitage, LLC is also supported by the community

SERVICES:

- a. Nursing Services: Licensed (RN's and LPN's) and ancillary nursing personnel will serve patients and in emergencies, area residents. In recognizing the critical role qualified nursing assistants play in the care of patients, NHC has established a pilot program with levels of certified nurse assistants (CNA).
- b. Rehabilitation Services: The center will provide physical, occupational, speech and recreational therapy services according to physician's orders as part of a rehabilitation program. These services are also available to all residents of the service area (outpatient) as part of the applicant's continuum of care.
- c. Dietary Services: All special diet needs will be met and proper nourishment will be provided at all times. NHC has implemented (and is the only long-term health care chain to do so) an American Dietetic Association-approved Dietetic Internship program whereby dietitians are chosen to train in the three major areas of dietetics within the long-term health care setting: administrative, clinical and community dietetics with an emphasis on the treatment of geriatric nutritional problems. Internists also receive training in hospitals and community health centers. Upon graduation and completion of exams, they become licensed and certified dietitians. NHC's goal is to place an ADA Dietitian in each NHC facility.
- d. Medical Director: A local physician will be employed as medical director on a consulting basis and will be available to attend to needs of our nursing home patients.
- e. Consultant Services: Advice and instructions is sought from health care professionals, including dietitians, pharmacists, gerontologists, therapists, and social workers.
- f. Housekeeping & Janitorial Services: Housekeeping and janitorial services will be provided to insure that services are rendered to patients in a clean, attractive, well-maintained and comfortable atmosphere.

- g. Laundry: Clean linens will be furnished to all patients and personal laundry services are available at a nominal charge.
- h. Patient Assessment Program: A multi-disciplinary team of health professionals will systematically conduct medical care evaluations, admission and extended duration review. The computerized patient assessment program of the applicant maintains patient-specific reports thereby enabling the professional staff to evaluate patient progress on a regular and comprehensive basis. Moreover, management can ensure the physician's orders are carried out in conformance with the highest standards of patient care. Detailed information is fed into the computer and analyzed monthly. This information shows each item of expense and need. The costs are then compared to expected standards and similar corporate facilities. A continuous effort is thus maintained in providing a first class nursing home at the lowest possible cost to the patient, his family and the state/federal government.
- i. Discharge Planning: A discharge planning coordinator will continuously monitor each patient's progress by individual contact and with the use of the patient assessment program in order to return the patient as soon as possible to the most independent living arrangements. This position is also responsible for some family support.
- j. Respite Care: The Health Center of Hermitage will also provide respite care based on bed availability. Respite care refers to providing nursing services to individuals in the community that are cared for in their home and whose families need a place to care for individuals for a short time while the family is away.
- k. Sub-Acute Care: The Health Center of Hermitage will provides Level II beds for heavy skilled patients which many centers currently can not take in any significant number due to physical plant limitations and staff training. The facility will be organized and staffed accordingly to meet the needs of these patients.

The Health Center of Hermitage will provide services to persons with decubiti ulcers, feeding tubes, catheters, tracheotomies, medical problems requiring IV's, or other persons requiring "sub-acute" care. It is the policy of The Health Center of Hermitage to make available heavy skilled nursing services to patients requiring such services. The project offers sub-acute services and does so with the expertise and knowledge to do them efficiently and effectively.

The Health Center of Hermitage will be able to care for sub-acute patients with its increased staffing. If demand for these "heavy skilled" or "sub-acute" care beds is greater than projected, additional staff, one of the main factors determining the number of sub-acute patients the facility can serve at any given time, is added to the staffing pattern.

- l. Transportation: The Health Center of Hermitage will provide non-medical transportation to and from locations in the county for patients and/or volunteers who need such a service.
- m. Alzheimer/Dementia Care: The Health Center of Hermitage will have a specialized program for Alzheimer patients which will consists of a specially trained staff of RN's, LPN's, Aides, Activities and Social Worker. These individuals provide support to the Alzheimer patients and families.
- n. Community Service - The Health Center of Hermitage will offers a number of Community Services such as health fairs and telephone reassurance for the local community.

- B. Identify the number and type of beds increased, decreased, converted, relocated, designated, and/or redistributed by this application. Describe the reasons for change in bed allocations and describe the impact the bed change will have on the existing services.

The proposed project calls for the relocation of a 90 bed nursing home granted by CN1306-22A. The center will promote the orderly development of the health care system in that it moves existing beds and services previously utilized and well received by the Davidson County community and patients it served. No new beds are being requested as part of this proposal.

We are requesting that the Agency approve a site change for the subject CON for a number of reasons. In summary, we are changing sites because of cost and engineering challenges at the Bell Road site. The proposed Central Pike site is a better location, allows more efficient building layouts, and is less expensive to purchase and develop.

Key points are:

Location- The proposed location along Central Pike is a better location because of its proximity to Summit Hospital (2 minute drive vs. 9 min from Bell Road).

Engineering- The original Bell Road site has been determined to offers significant engineering challenges. The Bell Road site is situated approximately 45-50 feet above Bell Road. This would require a 600 ft driveway with a 7% grade. Visitors will enter the Central Pike site at grade. This provides a much better entrance for our elderly population.

In addition, the original Bell Road site would require substantial grading. Our engineering studies indicated that NHC would have to blast 100,000 cy of rock and export 74,500 cy. Blasting and haul off would add \$856,000 to the budget. The Central Pike site, while it evidences substantial rock in the subsurface, can be a balanced site. A rock premium will be included in the construction estimates.

The Bell Road site's topographical changes are significant. This factor and its tight dimensions would require substantial retaining walls. Estimates of retaining wall costs are in the \$545,000 range.

All in all, the cumulative engineering challenges for the Bell Road site would add \$1.0 million to the project's final cost.

*Price-*The Central Pike site is less expensive than the Bell Road original site. Our new contract purchase price is \$78,571/ac compared to \$150,000/ac for the Bell Road site. This site has better dimensions for the project as well. The subject 90 Bed health care center can be sited on 10 acres at Central Pike compared to 13 acres for Bell Road. The Central Pike site allows for a more efficient use of property and is less expensive resulting in \$220,000 in savings.

SQUARE FOOTAGE AND COST PER SQUARE FOOTAGE CHART

A. Unit / Department	C/N Existing Location	1306-012 Existing C/SF	Temporary Location	Proposed Final Location	Proposed Final Square Footage			Proposed Final Cost/ SF		
					Renovated	New	Total	Renovated	New	Total
Admin						3,318			\$174.25	\$578,162
Kitchen						2,691			\$174.25	\$468,907

- C. As the applicant, describe your need to provide the following health care services (if applicable to this application):

1. Adult Psychiatric Services
2. Alcohol and Drug Treatment for Adolescents (exceeding 28 days)
3. Birthing Center
4. Burn Units
5. Cardiac Catheterization Services
6. Child and Adolescent Psychiatric Services
7. Extracorporeal Lithotripsy
8. Home Health Services
9. Hospice Services
10. Residential Hospice
11. ICF/MR Services
12. Long-term Care Services
13. Magnetic Resonance Imaging (MRI)
14. Mental Health Residential Treatment
15. Neonatal Intensive Care Unit
16. Non-Residential Methadone Treatment Centers
17. Open Heart Surgery
18. Positron Emission Tomography
19. Radiation Therapy/Linear Accelerator
20. Rehabilitation Services
21. Swing Beds

The applicant is seeking approval to relocate a 90 bed CON approved by CN1306-22A, which was granted by HSDA to construct a nursing home in Davidson County. While NHC manages the continuum care retirement community known as Richland Place in Nashville, this CON will be NHC's second owned center in Davidson County. Davidson County is an important market to NHC and its operations and services to the citizens of Tennessee.

- D. Describe the need to change location or replace an existing facility.

NHC is proposing to move its 90 CON granted by CN1306-22A.

We are requesting that the Agency approve a site change for the subject CON for a number of reasons. In summary, we are changing sites because of cost and engineering challenges at the Bell Road site. The proposed Central Pike site is a better location, allows more efficient building layouts, and is less expensive to purchase and develop.

Key points are:

Location- The proposed location along Central Pike is a better location because of its proximity to Summit Hospital (2 minute drive vs. 9 min from Bell Road).

Engineering- The original Bell Road site has been determined to offers significant engineering challenges. The Bell Road site is situated approximately 45-50 feet above Bell Road. This would require a 600 ft driveway with a 7% grade. Visitors will enter the Central Pike site at grade. This provides a much better entrance for our elderly population.

In addition, the original Bell Road site would require substantial grading. Our engineering studies indicated that NHC would have to blast 100,000 cy of rock and export 74,500 cy. Blasting and haul off would add \$856,000 to the budget. The Central Pike site, while it evidences substantial rock in the subsurface, can be a balanced site. A rock premium will be included in the construction estimates.

The Bell Road site's topographical changes are significant. This factor and its tight dimensions would require substantial retaining walls. Estimates of retaining wall costs are in the \$545,000 range.

All in all, the cumulative engineering challenges for the Bell Road site would add \$1.0 million to the project's final cost.

*Price-*The Central Pike site is less expensive than the Bell Road original site. Our new contract purchase price is \$78,571/ac compared to \$150,000/ac for the Bell Road site. This site has better dimensions for the project as well. The subject 90 Bed health care center can be sited on 10 acres at Central Pike compared to 13 acres for Bell Road. The Central Pike site allows for a more efficient use of property and is less expensive resulting in \$220,000 in savings.

- E. Describe the acquisition of any item of major medical equipment (as defined by the Agency Rules and the Statute) which exceeds a cost of \$1.5 million; and/or is a magnetic resonance imaging (MRI) scanner, positron emission tomography (PET) scanner, extracorporeal lithotripter and/or linear accelerator by responding to the following: **Not Applicable**
1. For fixed-site major medical equipment (not replacing existing equipment):
 - a. Describe the new equipment, including:
 1. Total cost ;(As defined by Agency Rule).
 2. Expected useful life;
 3. List of clinical applications to be provided; and
 4. Documentation of FDA approval.
 - b. Provide current and proposed schedules of operations.
 2. For mobile major medical equipment:
 - a. List all sites that will be served;
 - b. Provide current and/or proposed schedule of operations;
 - c. Provide the lease or contract cost.
 - d. Provide the fair market value of the equipment; and
 - e. List the owner for the equipment.
 3. Indicate applicant's legal interest in equipment (*i.e.*, purchase, lease, etc.) In the case of equipment purchase include a quote and/or proposal from an equipment vendor, or in the case of an equipment lease provide a draft lease or contract that at least includes the term of the lease and the anticipated lease payments.

- III. (A) Attach a copy of the plot plan of the site on an 8 1/2" x 11" sheet of white paper which **must** include:
Please see drawing included in the Attachment "Section B, Project Description - III (A) Plot Plan" on page 41 at the end of the application.

1. Size of site (*in acres*); 14.02 Acres
2. Location of structure on the site; and
3. Location of the proposed construction.
4. Names of streets, roads or highway that cross or border the site.

Please note that the drawings do not need to be drawn to scale. Plot plans are required for all projects.

- (B) 1. Describe the relationship of the site to public transportation routes, if any, and to any highway or major road developments in the area. Describe the accessibility of the proposed site to patients/clients.

The center will be located at 4214 Central Pike, Hermitage, Davidson County, Tennessee located within a mile of bus route number two (2) Old Hickory and Central Pike in Nashville, TN. The center site is located on the Southeast side of town and is accessible to the major transportation routes of Davidson County.

Nashville Metropolitan Transit Authority (MTA) bus routes access the Old Hickory and Central Pike area of town.

Please see map and bus schedule included in the Attachment "Section B, Project Description - III (B) Bus Schedule" on page 44 at the end of the application.

- IV. Attach a floor plan drawing for the facility which includes legible labeling of patient care rooms (noting private or semi-private), ancillary areas, equipment areas, etc. on an 8 1/2" x 11" sheet of white paper.

NOTE: **DO NOT SUBMIT BLUEPRINTS.** Simple line drawings should be submitted and need not be drawn to scale.

Please see drawing included in the Attachment "Section B, Project Description - IV Floor Plan" on page 49 at the end of the application.

- V. For a Home Health Agency or Hospice, identify: **Not Applicable**

1. Existing service area by County;
2. Proposed service area by County;
3. A parent or primary service provider;
4. Existing branches; and
5. Proposed branches.

SECTION C: GENERAL CRITERIA FOR CERTIFICATE OF NEED

In accordance with Tennessee Code Annotated § 68-11-1609(b), "no Certificate of Need shall be granted unless the action proposed in the application for such Certificate is necessary to provide needed health care in the area to be served, can be economically accomplished and maintained, and will contribute to the orderly development of health care." The three (3) criteria are further defined in Agency Rule 0720-4-.01. Further standards for guidance are provided in the state health plan (Guidelines for Growth), developed pursuant to Tennessee Code Annotated §68-11-1625.

The following questions are listed according to the three (3) criteria: (I) Need, (II) Economic Feasibility, and (III) Contribution to the Orderly Development of Health Care. Please respond to each question and provide underlying assumptions, data sources, and methodologies when appropriate. Please type each question and its response on an 8 1/2" x 11" white paper. All exhibits and tables must be attached to the end of the application in correct sequence identifying the question(s) to which they refer. If a question does not apply to your project, indicate "Not Applicable (NA)."

QUESTIONS

NEED

1. Describe the relationship of this proposal toward the implementation of the State Health Plan and Tennessee's Health: Guidelines for Growth.
 - a. Please provide a response to each criterion and standard in Certificate of Need Categories that are applicable to the proposed project. Do not provide responses to General Criteria and Standards (pages 6-9) here.
 - b. Applications that include a Change of Site for a health care institution, provide a response to General Criterion and Standards (4)(a-c)

Five Principles for Achieving Better Health

The following Five Principles for Achieving Better Health serve as the basic framework for the State Health Plan.

1. Healthy Lives

The purpose of the State Health Plan is to improve the health of Tennesseans.

While this principle focuses mainly on the goals and strategies that support health policies and programs at the individual, community, and state level that will help improve the health status of Tennesseans, this project is consistent in that it supports a continuum of care model where following an acute care stay patients would be able to receive intensive skilled nursing care and rehabilitative services at a stepped down cost from an acute care setting. The ultimate goal for all patients admitted is to return home to the least restrictive and least costly option available where the individual can live the healthiest life possible.

2. Access to Care

Every citizen should have reasonable access to health care.

NHC's healthcare model targets patients that are Medicare qualified beneficiaries seeking skilled nursing and rehabilitation services following a prior hospital stay. The majority of all patients placed in nursing homes from the acute care setting are Medicare beneficiaries. Since Medicare is a federal insurance program covering individuals age 65 and over, as well as disabled individuals below that age, access to long term care Medicare beds is a function of bed availability in the market. In Davidson County, the problem can exist for the acute care providers and their timely placement of Medicare nursing home patients to a qualified Medicare nursing home bed. Also, approval of the request will also help to alleviate extra patient days in acute care beds while waiting for a Medicare bed to become available, which is costly to the system and also creates access problems on the acute care side of the continuum as well.

3. Economic Efficiencies

The state's health care resources should be developed to address the needs of Tennesseans while encouraging competitive markets, economic efficiencies and the continued development of the state's health care system.

The project speaks to the very heart of this principle at several levels. First, the project was developed in cooperation between NHC and area hospital systems, a long term care provider and acute care providers. As accountable care organizations (ACO) begin to develop, with an eye to economic efficiencies and competitive markets, the state's health care system will begin to reshape itself. Ultimately, the goal of ACO's is to better serve the needs of the patient which this project is designed to do. By assuring that the appropriate level of care and health care beds are available, when needed, the state's health care system will be able to keep cost to their lowest level possible by making sure patients utilize services at the lowest level and cost possible. NHC's average length of stay for this project is projected to be between 18 to 36 days in the SNF section, which is consistent both with NHC HealthCare, Hendersonville in Sumner County and the Health Center at Richland Place located in Davidson County TN.

4. Quality of Care

Every citizen should have confidence that the quality of health care is continually monitored and standards are adhered to by health care providers.

NHC as a Long term care provider is surveyed both at the State and Federal level. Through various sources, including the Medicare.gov website and the Nursing Home Compare data sets, consumers can now compare and research long term care providers, home care providers and acute care providers. NHC compares favorably both at the State level and the national level regarding these measurements. Please see NHC Survey Analysis table located in Attachment "Section C. General Criteria - 2.B. Occupancy and Size Standards" located on page 77 at the end of the application. The attached table reflects recent quality performance. In addition, NHC's quality outcome's is also why several big health care systems are discussing establishing ACO's with NHC operations across the State of Tennessee and country.

5. Health Care Workforce

The state should support the development, recruitment, and retention of a sufficient and quality health care workforce.

NHC is consistent with this principle and has a long outstanding history with developing, recruitment and retention of a quality health care workforce. NHC non-profit, Foundation for Geriatric Education, since its inception in 1982, has funded over \$2,500,000 in books and academic programs for a qualified health care workforce. The company also has a tuition reimbursement program which has funded over \$7,200,000 millions of dollars for direct tuition for students. In addition, the company runs several of its own training programs to educate long term care health care workers such as a two year administrator in training program, a dietetic internship program, certified nursing assistant program, and advanced geriatric therapy program. NHC is also active in the federal workforce development system in locations across our markets and locally in the Middle Tennessee area with the Middle Tennessee Workforce Development Board for over ten years.

Please see the attachments, Section C, Need, Item I, Principles of the State Health Plan, pages 57-58, for back up tables to this section.

The following has been taken from the Tennessee's Health Guidelines for Growth, Criteria and Standards for Certificate of Need, 2000.

**CONSTRUCTION, RENOVATION, EXPANSION, AND REPLACEMENT
OF
HEALTH CARE INSTITUTIONS**

1. Any project that includes the addition of beds, services, or medical equipment will be reviewed under the standard for those specific activities.

So noted, this project request the relocation of a previously approved 90 bed nursing home, which is unconstructed at this point.

2. For relocation or replacement of an existing licensed health care institution:
 - a. **The applicant should provide plans which include costs for both renovation and relocation, demonstrating the strengths and weaknesses of each alternative.**

We are requesting that the Agency approve a site change for the subject CON for a number of reasons. In summary, we are changing sites because of cost and engineering challenges at the Bell Road site. The proposed Central Pike site is a better location, allows more efficient building layouts, and is less expensive to purchase and develop.

Key points are:

Location- The proposed location along Central Pike is a better location because of its proximity to Summit Hospital (2 minute drive vs. 9 min from Bell Road).

Engineering- The original Bell Road site has been determined to offers significant engineering challenges. The Bell Road site is situated approximately 45-50 feet above Bell Road. This would require a 600 ft driveway with a 7% grade. Visitors will enter the Central Pike site at grade. This provides a much better entrance for our elderly population.

In addition, the original Bell Road site would require substantial grading. Our engineering studies indicated that NHC would have to blast 100,000 cy of rock and export 74,500 cy. Blasting and haul off would add \$856,000 to the budget. The Central Pike site, while it evidences substantial rock in the subsurface, can be a balanced site. A rock premium will be included in the construction estimates.

The Bell Road site's topographical changes are significant. This factor and its tight dimensions would require substantial retaining walls. Estimates of retaining wall costs are in the \$545,000 range.

All in all, the cumulative engineering challenges for the Bell Road site would add \$1.0 million to the project's final cost.

Price- The Central Pike site is less expensive than the Bell Road original site. Our new contract purchase price is \$78,571/ac compared to \$150,000/ac for the Bell Road site. This site has better dimensions for the project as well. The subject 90 Bed health care center can be sited on 10 acres at Central Pike compared to 13 acres for Bell Road. The Central Pike site allows for a more efficient use of property and is less expensive resulting in \$220,000 in savings.

- b. **The applicant should demonstrate that there is an acceptable existing or projected future demand for the proposed project.**

The facility is projected to open in 2017. If present legislation remains in place, as it has over the last several years, no new nursing homes will be constructed in Tennessee outside of the 125 bed pool or replacement of existing facilities. Population projections for Davidson County show the continued growth of the age groups who use long term care services. In addition, referral sources who seek admission to long term care centers for their patients can and have attested to the fact that The Health Center of Hermitage is needed to continue an adequate level and balance of continuity of care in Davidson County.

- 3. For renovation or expansion of an existing licensed health care institution:

Not Applicable, the proposal is for the relocation of unconstructed beds granted by an existing CON.

- a. The applicant should demonstrate that there is an acceptable existing demand for the proposed project.
- b. The applicant should demonstrate that the existing physical plant's condition warrants major renovation or expansion.

NURSING HOME SERVICES

Public Chapter No. 1112, Senate Bill No. 2463, which passed during the 1998 legislative session, amended and changed the code sections establishing the bed need formula that the Health Services and Development Agency must follow when granting certificates of need for nursing home beds in Tennessee. During the fiscal year (July 1 – June 30), the Agency shall issue no more than the designated number of Medicare skilled nursing facility beds for applicants filing for a certificate of need. The number of Medicare skilled nursing facility beds issued shall not exceed the allocated number of beds for each applicant. The applicant must also specify in the application the skilled services to be provided and how the applicant intends to provide such services.

The Tennessee General Assembly directed that there be a pool of 125 skilled nursing facility beds available for certificate of need approval in the fiscal year from July 1, 2013 to June 30, 2014. The General Assembly also directed that nursing home bed certificates of need could be issued only for Medicare – certified skilled nursing facility beds, and that no applicant receives more than 30 such beds.

A. Need

1. According to TCA 68-11-1622, the need for nursing home beds shall be determined by applying the following population-based statistical methodology:

County bed need = .0005 x pop. 65 and under, plus
 .0120 x pop. 65 – 74
 .0600 x pop. 75 – 84
 .1500 x pop 85+

As stated above, Public Chapter No. 1112, Senate Bill No. 2463, amended and changed the code sections establishing the bed need formula that the Health Services and Development Agency must follow when granting certificates of need for nursing home beds in Tennessee. Based on the above referenced bed need methodology and a Nursing Facility Bed Need: Comparison of Tennessee's Health: Guidelines for Growth 2000 vs. Statute, By Total State and County 2000, there is a need in Davidson County of nursing home beds projected for 2016, or a need for an additional 592 beds in Davidson County. **Please see Nursing Facility Bed Need Report located in Attachment "Section C. General Criteria - 1.A. Need" located on page 60 at the end of the application.** This information, which is the most current available to the department, was provided and is included here for reference.

These projections demonstrate a need based on the population growth in Davidson County for nursing beds.

4. A. Describe the demographics of the population to be served by this proposal.

During the 20th century, the number of person in the United States under age 65 has tripled. At the same time, the number aged 65 and over has grown by a factor of 11. According to Census Bureau's projections, the elderly populations will more than double between 1995 and the year 2050, to 80 million. By that year, as many as 1 in 5 Americans could be elderly. In 2010, persons 65 and above represented 13.0% of the total population (Census 2010).

Perhaps more significant is the rapid growth expected in oldest old age group, which are more likely to need some form of nursing home care. Thanks to the arrival of the survivors of the baby boom generation, it is expected the oldest old will number 19 million in 2050. That would make them 22 percent of elderly Americans and 4.3 percent of all Americans. (U.S. Census, *The Next four Decades: The Older Population in the United States: 2010-2050*, 5/10).

Diagnostic Related Group (DRG) prospective payment for hospitals made a significant impact on the demand for nursing home services. The prospective payment system encourages hospitals to discharge their elderly patients to long term care facilities (*Modern Healthcare*, 1984). Nursing homes today still experience great demand to accommodate patients who are admitted sicker and require greater amounts of nursing care. Consequently, there exist a growing need for nursing facilities offering and providing high level and quality skilled care services (Level II). Since many of the local medical centers do not provide nursing home care, the responsibility to provide this level of service rest on local nursing home providers.

Davidson County's age 65 and over population grew by 10.4% from 2010 to 2014. According to the Census 2010 figures, Davidson County total population increased by 22,369 persons from 2010 to 2015 or 3.8% from 595,833 to 618,202 residents.

The age 65+ population in Davidson County is projected to increase from 67,373 to 78,799, from 2010 to 2016 respectively (Source: Office of Health Statistics, TN Dept of Health) The primary population to be served by the proposal is those over the age of 65. **Please see Attachment "Section C – General Criteria – 4A Demographics of the Population Served" located on page 81 at the end of the application.**

Davidson County Population Projections

Age					
	2010	2014	2016	2010 - 2014 % Increase	2010 - 2016 % Increase
60 - 64	29,963	33,894	35,605	13.1%	18.8%
65-74	35,624	41,872	45,471	17.5%	27.6%
75-84	21,666	21,706	22,262	0.2%	2.8%
85+	10,083	10,778	11,066	6.9%	9.7%
65+	67,373	74,356	78,799	10.4%	17.0%
Total Population	595,833	609,905	618,202	2.4%	3.8%

Statistics, Bureau of Health
Informatics, Tennessee
Department of Health

Existing beds based on licensed beds, Licensed Health Facilities, TN
Department of Health 4/07/14

CON beds includes McKendree and the Health Center at Nashville (NHC) &

* The Health Center of Hermitage

So noted by the applicant. The bed need referenced in response to Question 1 is the projected two year to show the 2016 bed need. There is a net need for an additional 592 nursing beds, per this report, even after taking into account CON's for 210 beds. Please note that the 90 beds that are the subject of this CON request are included in the 210 bed number. This application is requesting to relocate 90 beds granted by **CN1107-24A**, no net increase of beds in Davidson County nursing home bed inventory is proposed.

3. **The source of the current supply and utilization of licensed and CON approved nursing home beds shall be the inventory of nursing home beds maintained by the Department of Health.**

So noted by the applicant. The following bed inventory was reported to the referenced agency for year ending 12/31/12 for Davidson County. In addition, there are two approved or outstanding CON's for 60 new nursing home beds in Davidson County; the remaining beds are replacement beds.

2012 Licensed Nursing Homes in Davidson County

<u>Facility</u>	<u>Beds</u>	<u>% Occupancy</u>

Source: 2012 TN JAR Summary Reports, Schedule E - Beds
2012 TN JAR Reports, Schedule F Utilizations - Part 2, Resident Days of Care

* Life Care Center of Hickory Woods (124 beds) was licensed on 10/25/11; however, a 2012 JAR has not been filed

* Life Care Center of Old Hickory Village (124 beds) was licensed on 5/3/12.

Signature Healthcare of Nashville was licensed on 1/17/13 and was not part of this analysis.

Jackson Park Christian Home has not filed a 2012 JAR.

In addition to NHC's **CN1107-24A** for 90 beds, there is one (1) other nursing home bed addition CON outstanding in Davidson County for 30 beds.

Please see Attachment "Section C. General Criteria – 1.A.3 Inventory and Utilization" located on page 63 at the end of the application.

4. **"Service area" shall mean the county or counties represented on an application as the reasonable area to which a health care institution intends to provide services and/or in which the majority of its service recipients reside. A majority of the population of a service area for any nursing home should reside within 30 minutes travel time from that facility.**

Since the proposed project is utilized by the elderly population, those age 65 and above most frequently, and the elderly often have difficulty with transportation and travel, the primary service has been determined to be Davidson County. However, we do expect that some residents will come from outside our primary service area. Also of importance, is the fact that in urban cities such as Nashville, residents tend to stay close to home when it comes to utilizing their health care options. Nevertheless, we have confined our need justification to Davidson County where the majority of the population of the service area is within 30 minutes travel time from the proposed facility.

Please see Attachment "Section C General Criteria - A.4. Service Area JAR Report", on page 71 located at the end of the application that reflects nursing home resident information by county of residence for Davidson County.

5. **The Health Services and Development Agency may consider approving new nursing home beds in excess of the need standard for a service area, but the following criteria must be considered:**

- a. **All outstanding CON projects in the proposed service area resulting in a net increase in beds are licensed and in operation, and**

The application is for relocation of 90 existing approved beds. Other than the applicants subject CON referenced herein, there is currently one (1) other CON outstanding in Davidson County for the addition of 30 beds by McKendree Manor. NHC also has a CN 1107-024AME for the construction of a 90 bed nursing home in western Davidson County, but these beds are replacement beds. McKendree's 30 bed CON represents the only other net increase in beds to the Davidson County nursing home inventory.

- b. All nursing homes that serve the same service area population as the applicant have an annualized occupancy in excess of 90%.

Source: 2012 TN JAR Summary Reports, Schedule E - Beds

2012 TN JAR Reports, Schedule F Utilizations - Part 2, Resident Days of Care

* Life Care Center of Hickory Woods (124 beds) was licensed on 10/25/11; however, a 2012 JAR has not been filed

* Life Care Center of Old Hickory Village (124 beds) was licensed on 5/3/12.

Signature Healthcare of Nashville was licensed on 1/17/13 and was not part of this analysis.

Jackson Park Christian Home has not filed a 2012 JAR.

The above table documents that according to the Joint Annual Reports for Nursing Homes in 2012, not all nursing homes in Davidson County had an annual occupancy of over 90%.

B. Occupancy and Size Standards:

1. **A nursing home should maintain an average annual occupancy rate for all licensed beds of at least 90 percent after two years of operation.**

The proposed project projects over a 90 percent annual occupancy rate for all licensed beds after two years of operation.

2. **There shall be no additional nursing home beds approved for a service area unless each existing facility with 50 beds or more has achieved an average annual occupancy rate of 95 percent. The circumstances of any nursing home, which has been identified by the Regional Administrator, as consistently non-complying with quality assurance regulations shall be considered in determining the service areas, average occupancy rate.**

Not Applicable, no additional nursing home beds are proposed. Upon review of the attached charts sited below, it would seem to indicate that patients, families and doctors are selecting facilities, based on quality of care, or choosing to occupy centers which tend to have a lessor number of deficiencies and better Five Star ratings.

Please see **Attachment “Section C. General Criteria – 2B” located on page 76 at the end of the application** which shows the survey history of the nursing homes in Davidson County

3. A nursing home seeking approval to expand its bed capacity must have maintained an occupancy rate of 95 percent for the previous year.

Not Applicable, application is for relocation, and construction of a new facility.

4. A freestanding nursing home shall have a capacity of at least 30 beds in order to be approved. The Health Services and Development Agency may make an exception to this standard. A facility of less than 30 beds may be located in a sparsely populated rural area where the population is not sufficient to justify a larger facility. Also, a project may be developed in conjunction with a retirement center where only a limited number of beds are needed for the residents of that retirement center.

Not Applicable, application is for relocation, and addition of beds totaling a 90 bed capacity.

2. Describe the relationship of this project to the applicant facility's long-range development plans, if any.

At NHC, our company motto is Care is Our Business. NHC's long-range development plans for Davidson County is quite simple, to provide quality long-term care services to meet the needs of the citizens of Davidson County. Our goal is to once again provide the needed long-term services we have provided over the last 30 years to the residents of Davidson County.

3. Identify the proposed service area and justify the reasonableness of that proposed area. Submit a county level map including the State of Tennessee clearly marked to reflect the service area. Please submit the map on 8 1/2" x 11" sheet of white paper marked only with ink detectable by a standard photocopier (i.e., no highlighters, pencils, etc.).

The service area for this proposed project is Davidson County and specifically the east side of town. This is a reasonable area since nursing residents prefer not to leave their local communities. **Please see the county level map in Attachment "Section C. General Criteria - 3 Service Area Map" located on page 80 at the end of the application.** The continued growth in the population group aged 65 and above as documented support the continued need for and existence of high quality of care nursing home beds in Davidson County.

4. A. Describe the demographics of the population to be served by this proposal.

During the 20th century, the number of person in the United States under age 65 has tripled. At the same time, the number aged 65 and over has grown by a factor of 11. According to Census Bureau's projections, the elderly populations will more than double between 1995 and the year 2050, to 80 million. By that year, as many as 1 in 5 Americans could be elderly. In 2010, persons 65 and above represented 13.0% of the total population (Census 2010).

Perhaps more significant is the rapid growth expected in oldest old age group, which are more likely to need some form of nursing home care. Thanks to the arrival of the survivors of the baby boom generation, it is expected the oldest old will number 19 million in 2050. That would make them 22 percent of elderly Americans and 4.3 percent of all Americans. (U.S. Census, *The Next four Decades: The Older Population in the United States: 2010-2050*, 5/10).

Diagnostic Related Group (DRG) prospective payment for hospitals made a significant impact on the demand for nursing home services. The prospective payment system encourages hospitals to discharge their elderly patients to long term care facilities (*Modern Healthcare*, 1984). Nursing homes today still experience great demand to accommodate patients who are admitted sicker and require greater amounts of nursing care. Consequently, there exist a growing need for nursing facilities offering and providing high level and quality skilled care services (Level II). Since many of the local medical centers do not provide nursing home care, the responsibility to provide this level of service rest on local nursing home providers.

Davidson County's age 65 and over population grew by 13.7% from 2010 to 2014. According to the Census 2010 figures, Davidson County total population increased by 29,704 persons from 2010 to 2016 or 6.8% from 626,681 to 656,385 residents.

The age 65+ population in Davidson County is projected to increase from 65,403 to 79,897, from 2010 to 2016 respectively (Source: Office of Health Statistics, TN Dept of Health) The primary population to be served by the proposal is those over the age of 65. **Please see Attachment "Section C – General Criteria – 4A Demographics of the Population Served" located on page 81 at the end of the application.**

Davidson County Population Projections

Age					
	2010	2014	2016	2010 - 2014 % Increase	2010 - 2016 % Increase

B. Describe the special needs of the service area population, including health disparities, the accessibility to consumers, particularly the elderly, women, racial and ethnic minorities, and low-income groups. Document how the business plans of the facility will take into consideration the special needs of the service area population.

The proposed project is accessible to all consumers, including women, racial and ethnic minorities, and low-income groups. The Health Center of Hermitage is proposing to relocate a 90 bed CON in Davidson County and construct a new state of the art facility which will be certified for Medicare. The services proposed herein address special needs of the population which this center will serve. The services will be made readily available to each of the following:

- (a) Low income persons;
- (b) Racial and ethnic minorities;
- (c) Women;
- (d) Handicapped persons;
- (e) Elderly; and
- (f) Other underserved persons (e.g., "sub-acute" care patients discharged from hospitals and persons with dementia).

It is and will continue to be the centers policy to be readily accessible to low income persons, racial and ethnic minorities, women, handicapped persons, elderly, and other underserved persons.

- 52
5. Describe the existing or certified services, including approved but unimplemented CONs, of similar institutions in the service area. Include utilization and/or occupancy trends for each of the most recent three years of data available for this type of project. Be certain to list each institution and its utilization and/or occupancy individually. Inpatient bed projects must include the following data: admissions or discharges, patient days, and occupancy. Other projects should use the most appropriate measures, e.g., cases, procedures, visits, admissions, etc.

The information contained herein, is based on the most current published information reported by the State of Tennessee and other sources. The following bed inventory was reported to the referenced agency for year ending 12/31/2010, 12/31/11 and 12/31/12 for Davidson County.

NHC's CN1107-24AME and CN1306-022A for 90 beds each are the only remaining nursing home replacement CON's outstanding in Davidson County. The other outstanding CON is held by McKendree Manor for the addition of 30 nursing home beds.

Nursing Homes	2014 Licensed Beds	2010 Patient Days	2011 Patient Days	2012 Patient Days	2010 Licensed Occupancy	2011 Licensed Occupancy	2012 Licensed Occupancy

Source: 2010 - 2012 JAR

* Formally Imperial Gardens Health & Rehabilitation
2010 - 2012 Patient Days and Occupancy is based on JAR filings by Imperial Gardens (165 beds). Please note, Imperial Gardens only reported 117 resident days of care for 2011.

** Life Care Center of Hickory Woods was licensed on 10/25/11.
Life Care Center of Old Hickory Village was licensed on 5/3/12.
Signature Healthcare of Nashville was licensed on 1/17/13.

2012 Occupancy of 84.1% is Less Jackson Park, Life Care Center of Old Hickory Village, Life Care Center of Hickory Woods and Signature Healthcare.

6. Provide applicable utilization and/or occupancy statistics for your institution for each of the past three (3) years and the projected annual utilization for each of the two (2) years following completion of the project. Additionally, provide the details regarding the methodology used to project utilization. The methodology must include detailed calculations or documentation from referral sources, and identification of all assumptions.

Annual utilization for each of the two (2) years following completion of the project.

	<u>2018</u>	<u>2019</u>	<u>2020</u>
The Health Center of Hermitage	26.57%	78.58%	95.02%

Please see Attachment, Section C, Economic Feasibility – 4, Historical & Projected Data Chart, p. 130 for the details and methodology used to project utilization.

1. Provide the cost of the project by completing the Project Costs Chart on the following page. Justify the cost of the project.

- All projects should have a project cost of at least \$3,000 on Line F. (Minimum CON Filing Fee). CON filing fee should be calculated from Line D. (See Application Instructions for Filing Fee)
- The cost of any lease should be based on fair market value or the total amount of the lease payments over the initial term of the lease, whichever is greater.
- The cost for fixed and moveable equipment includes, but is not necessarily limited to, maintenance agreements covering the expected useful life of the equipment; federal, state, and local taxes and other government assessments; and installation charges, excluding capital expenditures for physical plant renovation or in-wall shielding, which should be included under construction costs or incorporated in a facility lease.
- For projects that include new construction, modification, and/or renovation; documentation must be provided from a contractor and/or architect that support the estimated construction costs.

The cost of this proposed project is \$19,241,697 for 90 bed nursing home. Costs for the proposed project are based on actual cost incurred on projects undertaken by NHC and based on the experience of Johnson & Bailey, Architects. Estimates provided are considered to be consistent with past experience and to be based on sound assumptions.

Special efforts to be made by the applicant to contain the costs of offering the proposed services are the following:

- a. Group Purchasing
- b. Shared Services
- c. Energy Conservation
- d. Controlled Management Costs
- e. Cost and Quality Control

Please see Attachment "Section C - Economic Feasibility – 1 Project Cost Chart" located on page 114 at the end of the application.

2. Identify the funding sources for this project.

- a. Please check the applicable item(s) below and briefly summarize how the project will be financed. (*Documentation for the type of funding MUST be inserted at the end of the application, in the correct alpha/numeric order and identified as Attachment C, Economic Feasibility-2.*)

The proposed project has the following source of funds: A commitment of capital cost reflected on Project Cost Chart has been secured from National Health Investors, Inc. Additionally, a commitment of working capital has been secured from National HealthCare Corporation. Debt incurred for the project will be retired as reflected on Projected Data Chart.

- ☐ A. Commercial loan--Letter from lending institution or guarantor stating favorable initial contact, proposed loan amount, expected interest rates, anticipated term of the loan, and any restrictions or conditions;
- ☐ B. Tax-exempt bonds--Copy of preliminary resolution or a letter from the issuing authority stating favorable initial contact and a conditional agreement from an underwriter or investment banker to proceed with the issuance;
- ☐ C. General obligation bonds--Copy of resolution from issuing authority or minutes from the appropriate meeting.
- ☐ D. Grants--Notification of intent form for grant application or notice of grant award; or
- ☒ E. Cash Reserves--Appropriate documentation from Chief Financial Officer.
- ☐ F. Other--Identify and document funding from all other sources.

Please see letter indicating the required information in Attachment "Section C Economic Feasibility – 2" located on page 117 at the end of the application.

3. Discuss and document the reasonableness of the proposed project costs. If applicable, compare the cost per square foot of construction to similar projects recently approved by the Health Services and Development Agency.

The proposed project is reasonable in relation to similar facilities in the state. The cost per bed is \$142,920, construction cost only or \$213,797 per bed of total project cost which is comparable to similar types of projects in the state. Furthermore, project costs are reasonable and inline with our past experience. Thus, quality nursing services and the continuum of care will be expanded in the local area cost effectively.

Following is information obtained from HSDA regarding the construction ranges for nursing home CONs approved between 2010 and 2012. Per HSDA "The only exceptions are if the property/building was going to be leased; thus, the cost per square foot couldn't be calculated."

**Nursing Home Construction Cost Per Square Foot
Years: 2010 – 2012**

	Renovated Construction	New Construction	Total Construction
1st Quartile	\$19.30/sq ft	\$164.57/sq ft	\$73.23/sq ft
Median	\$35.76/sq ft	\$167.31/sq ft	\$164.57/sq ft
3rd Quartile	\$55.00/sq ft	\$181.72/sq ft	\$167.61/sq ft

Source: CON approved applications for years 2010 through 2012

4. Complete Historical and Projected Data Charts on the following two pages--Do not modify the Charts provided or submit Chart substitutions! Historical Data Chart represents revenue and expense information for the last *three (3)* years for which complete data is available for the institution. Projected Data Chart requests information for the two (2) years following the completion of this proposal. Projected Data Chart should reflect revenue and expense projections for the *Proposal Only* (i.e., if the application is for additional beds, include anticipated revenue from the proposed beds only, not from all beds in the facility).

Please see Attachment "Section C Economic Feasibility – 4 Historical (Not Applicable) & Projected Data Chart" located on page 125 at the end of the application.

5. Please identify the project's average gross charge, average deduction from operating revenue, and average net charge. The Projected Data Chart was used as the source for the requested calculations.

	Year One (Patient Days 8,729)	Year Two (Patient Days 25,815)	Year Three (Patient Days 31,213)
Average Gross Charge	\$541.05	\$564.82	\$590.00
Average Deduction	\$153.13	\$165.44	\$176.41
Average Net Charge	\$387.92	\$399.38	\$413.59

6. Please provide the current and proposed charge schedules for the proposal. Dis April 25, 2014
 adjustment to current charges that will result from the implementation of the proposed 12:26am
 Additionally, describe the anticipated revenue from the proposed project and the impact on
 existing patient charges.

Patient Charge/Reimbursement	Year 1(6/2017)	Year 2(6/2018)
	<u>Proposed</u>	<u>Proposed</u>
Private/Private Pay	\$279.90	\$292.49
Semi-Private/Private Pay	\$263.50	\$275.36
Semi Private – Companion	\$271.70	\$283.93
Medicare	\$494.34	\$504.23
Managed Care	\$470.79	\$480.21

The proposed CON project is for the relocation of a 90 bed nursing home approved by CN1306-022A and called The Health Center of Hermitage. Consequently, there are no existing patient charges. Medicare RUG rates are inflated 2.0% annually. The anticipated revenue from the proposed project is sufficient to produce positive net operating income in year two of \$101,281.

12. Section C, Economic Feasibility, Item 6

Please revise the statement to reflect that the project pertains to the relocation of the 90 bed nursing home approved in CN1306-022A.

Please see the attached revised page.

The applicant provides charges for semiprivate- private pay and semiprivate - companion. However, this appears to be an all private room only facility with 90 beds. Please clarify how these two rates would apply to the financial projections of the application.

This proposed project has the following room mix:

76	Private Room	76 beds
2	Bariatric Rooms	2 beds
<u>6</u>	Companion Rooms	<u>12</u> beds
84 Rooms		90 Beds

The proforma provides rates for Private rooms, Semi-private rooms and Companion rooms. Patients are only in Private rooms and Companion rooms. The Semi-private room rate was included in the application for reference purposes and to establish the proposed rate for the Companion rooms.

The rate information contained in the tables on pages 155 - 157 is noted. Please add a row to the 2017 and 2018 tables containing the applicant's proposed rates for 2017 and 2018. The row should be included in bold font at the bottom of the chart following the "Average Rates" row.

Please see the attached table containing the requested information.

- B. Compare the proposed charges to those of similar facilities in the service area/adjoining service areas, or to proposed charges of projects recently approved by the Health Services and Development Agency. If applicable, compare the proposed charges of the project to the current Medicare allowable fee schedule by common procedure terminology (CPT) code(s).

Please see Attachment "Section C – Economic Feasibility – 6b Estimated Rates" on page 154 at the end of the application for a comparison of the proposed charges to those of similar facilities in Davidson County. Please note that Medicare reimburses providers via a perspective payment system. Providers are compensated equally based on the particular service rendered. A comparison of the 2013/2014 rates inflated 4.5% a year to the projected 2017 opening show the proposed charges to be similar.

7. Discuss how projected utilization rates will be sufficient to maintain cost-effectiveness.

The projected utilization rates are sufficient to maintain cost-effectiveness. Please see the proforma Projected Data Chart located in the Attachments to this CON application on page 125 including page 130 for a two-year and three year projection showing utilization rates sufficient to maintain cost effectiveness.

8. Discuss how financial viability will be ensured within two years; and demonstrate the availability of sufficient cash flow until financial viability is achieved.

The nursing home is projected within the second year to have sufficient positive cash flow to achieve financial viability. **(Please see Projected Data Chart on page 125 of the attachments and page 117 documenting the availability of sufficient cash for the project)**

9. Discuss the project's participation in state and federal revenue programs including a description of the extent to which Medicare, TennCare/Medicaid, and medically indigent patients will be served by the project. In addition, report the estimated dollar amount of revenue and percentage of total project revenue anticipated from each of TennCare, Medicare, or other state and federal sources for the proposal's first year of operation.

The proposed project will be accessible to patients eligible for nursing home care. Medicare, insurance and private funded payment sources are accepted by the center. Patient payor mix for The Health Center of Hermitage has been projected in the proforma based on NHC's experience in the market place.

The estimated dollar amount of revenue and percentage of total project revenue anticipated by payor source for year one is as follows:

Private/Private Pay	\$ 1,091,045	32.22%
Semi Private Companion	\$ 158,379	4.68
Medicare	\$ 1,258,389	37.16
Medicare Part B	\$ 24,065	0.71
Managed Care	\$ 850,939	25.13
Misc.	\$ 3,373	0.10
Total	\$3,386,190	100%

Source: Attachments, page 131 of the financial proforma assumptions.

10. Provide copies of the balance sheet and income statement from the most recent reporting period of the institution and the most recent audited financial statements with accompanying notes, if applicable. For new projects, provide financial information for the corporation, partnership, or principal parties involved with the project. Copies must be inserted at the end of the application, in the correct alpha-numeric order and labeled as Attachment C, Economic Feasibility-10.

Please see Attachment "Section C Economic Feasibility - 2 page 118 at the end of the application for the most recent audited financial statements for NHC (year end 12/31/2013).

11. Describe all alternatives to this project which were considered and discuss the advantages and disadvantages of each alternative including but not limited to:

- a. A discussion regarding the availability of less costly, more effective, and/or more efficient alternative methods of providing the benefits intended by the proposal. If development of such alternatives is not practicable, the applicant should justify why not; including reasons as to why they were rejected.**

After compiling all of the facts, it was decided that the best alternative would be to relocate the 90 beds currently approved by CN1306-022A. This proposal will allow the Health Center of Hermitage to meet the long-term care needs of the residents of Davidson County.

(a) Do nothing. The decision to construct the 90 bed CON on the current site was rejected due the cost differences and fact that a superior site location has been found since first selecting the original CON option. In addition, our desire is to move the approved beds closer to the service area of several large hospital campuses, will make available the services NHC is proposing to a broader number of patients across the city.

(b) Request additional beds. This proposal was considered but rejected because the existing approved CON project will allow both efficiency of operation and design. The projected need in Davidson County is for an additional 592 Medicare beds in 2016.

(c) Relocate the previously approved 90 bed CON to both a new superior site location and a less costly site. This proposal was considered and accepted. By relocating CN1306-022A, and the 90 beds approved to offer skilled nursing services and rehab services, this proposal will meet the projected needs and orderly development of the health care community in Davidson County by allowing a project to move forward with overall lower cost and in closer proximity to a major referring hospital.

- b. The applicant should document that consideration has been given to alternatives to new construction, e.g., modernization or sharing arrangements. It should be documented that superior alternatives have been implemented to the maximum extent practicable.

Not Applicable, the applicant is proposing the relocation of a previously approved CON.

(III.) CONTRIBUTION TO THE ORDERLY DEVELOPMENT OF HEALTH CARE

1. List all existing health care providers (e.g., hospitals, nursing homes, home care organizations, etc.), managed care organizations, alliances, and/or networks with which the applicant currently has or plans to have contractual and/or working relationships, e.g., transfer agreements, contractual agreements for health services.

Transfer agreements will be established between all relevant health care providers in the community including but not limited to the following:

Summitt Medical Center
 Baptist Hospital
 Centennial Medical Center
 St. Thomas Hospital
 Vanderbilt University Hospital
 Nashville Rehabilitation Hospital
 University Medical Center
 Department of Veterans Affairs
 Vanderbilt Dialysis Clinic
 DCI Summit
 Dialysis Clinic, Inc.
 Medic One, Inc.
 Empact Medical Services
 Woodbury Clinical Laboratory
 West Meade Place (emergency evacuation)
 The Health Center at Richland Place (emergency evacuation)
 Network Pharmacy
 Other Area Nashville, Davidson County and surrounding health care providers

Contractual relationships will be drawn up with a Medical Director, Dietary Consultant, Physical Therapist, Medical Record Consultant, and Therapists for other treatment such as oxygen therapy. Contractual relationships are established with local dentists, optometrists, gerontologists and other specialized physicians, in order to meet the needs of the patients.

A licensed pharmacist is a member of the Pharmacy Committee, and a local pharmacy is awarded a contract to supply medications for the patients. If a patient does not wish to use the pharmacy with which the facility has contracted, the patient will have the choice of the pharmacy he chooses to use provided the pharmacy agrees to the mandates of the State regulations and the rules and regulations of the nursing home.

It is the intent of this facility to meet all the requirements of the TN Department of Health with regard to agreements, contractual arrangements and participation by health care professionals. The following is the process, which has been established to coordinate and provide for a continuum of care in the project in conjunction with other providers:

Purpose: The purpose of being actively involved in the community continuum of care is to provide the consumer within our market area the opportunity to acquire the most appropriate level and type of services for his/her needs. These needs relate to medical support, personal care, personal maintenance and nutritional guidance. We will focus on coordinating our services with other health care providers through effective communication and teamwork.

Targeted Population: Although the targeted population is diverse due to the multifaceted nature of the continuum of care, two groups dominate NHC's particular services on the continuum.

1. Individuals in other community settings who need services devoted to rehabilitation and short-term stays in the healthcare center.

2. Persons who can no longer be maintained or cared for in their current setting and need 24-hour care for chronic and/or debilitating conditions of a long-term nature.

Methodology:

Step 1: Maintain a listing of Current Community Resources-This listing is categorized according to type of service contact person for each organizations. Standard categories, with the function as it relates to our facility include the following:

<u>Organization</u>	<u>Function</u>
Hospitals	Discharge sub-acute patients to more cost-effective nursing centers.
Hospices	Care for special group of terminally ill.
Residential Facilities	Residential institution for those unable to maintain independent lifestyles but do not need intense Medical Care.
Assisted Living (ALF)	Group environment to prevent immediate admission to long-term care facility.
Home Health Care	Provides Medical treatment on less expensive environment than institution.
Home Support	Household or personal services essential to any home health care program.
Adult Day Care	Needed respite service for family support while care provided at home.
Nutrition Programs	Health promotions service which also acts to encourage socialization and prevent isolation.
Senior Centers/ Recreation Services	Acts to improve quality of life and encourages socialization

Step 2: All potential nursing center patients and referrals are pre-screened to determine whether the person's condition warrants admission to the nursing center. If admission to the nursing center is not appropriate, and if the person's condition is such that he can be cared for at home with assistance, the Admissions Director and the Social Services Director will refer the person and his family to the appropriate service provider. This will ensure that elderly persons are not being inappropriately admitted to the nursing center and coordination of other services is maintained.

For elderly persons admitted to the nursing center, discharge planning will ensure that patients are discharged to a non-institutional setting when their physical condition improves. Discharge planning begins upon the patient's admission to the center. At that time, the Admissions Director and Social Services Director will meet with the patient and his family to discuss the availability of suitable accommodations following discharge as determined by the initial assessment.

The patient's progress is monitored and reassessed on a regular basis to determine whether the patient is a candidate for transfer to the community. The Social Services Director, who is part of the center's interdisciplinary care team, will update each patient's medical record with progress notes regarding discharge planning on a regular basis. If discharge has been determined to be appropriate, the Social Services Director will advise the patient and his family of the availability of community support systems, such as home health care, adult day care, etc. The Social Services Director will serve as the liaison between the patient, his family, and the appropriate provider to coordinate the discharge home and the linkage for support services.

Linkages to facilitate referrals and transfers are established through formal working agreements and referral arrangements. These agreements are established prior to facility opening to ensure immediate linkages. Given the fact that NHC already operates in Davidson County, the replacement center will benefit from established referral agreements with the targeted organizations listed above.

Responsible Position: The center's Admissions Director and Social Services Director are responsible for ensuring that potential patients who inquire at the center for admission are referred to the appropriate provider if admission to the nursing center is not warranted or if such service is needed. The Social Services Director is responsible for discharge planning to ensure that patients are discharged from the center when they are ready and that transfer to a semi-institutional setting or to home with appropriate support services is successfully coordinated. Through their ongoing work, the Admissions Director and Social Services Director will maintain linkages and working relationships with providers of non-institutional services.

Desired Outcome: The desired outcome is to ensure that discharges and/or referrals to support services are available and coordinated in a timely manner for patients who no longer require nursing home care and for elderly inquiring at the center for services, but who are inappropriate for admission.

- 1) Become a strong link in the chain of health care providers as it relates to an overall continuum of care.
- 2) Improve and enhance proper service utilization.
- 3) Improve patients' medical conditions by using available avenues.
- 4) Reduce cost by eliminating duplication of services.

Measurement of Outcome: The Admissions Director and Social Services Director will maintain a record of inquiries and referrals of elderly persons seeking long-term care services. These records are reviewed through Quality Assurance and state licensure surveys to determine if appropriate referrals are being made.

Patient medical records are reviewed on a regular basis by the interdisciplinary care team to determine if discharge from the nursing center is appropriate, and if discharge planning goals are being updated or modified. Discharge planning will also be monitored through Quality Assurance surveys and state licensure surveys. Utilization review is conducted every month for Medicare patients. Monitoring of discharge planning will promote the utilization of less intensive, non-institutional services whenever possible.

To integrate and utilize other providers in the health care network the center has established and will have linkages with others in the health care network through the following process:

Purpose: To promote the utilization of less intensive, non-institutional services such as home health care, adult day care, meals on wheels, etc. Since the proposed nursing center will not offer these services, linkages are established with providers of these services to ensure accessibility and transfer when appropriate by nursing center patients.

Targeted Population: Persons targeted for referral to non-institutional services are those nursing center patients whose health has improved to the point where they no longer require 24-hour nursing supervision and are eligible for transfer to home or to a semi-institutional setting, with support services. Referrals will also be made for persons inquiring at the center for long-term care services, but whom after pre-screening, are determined to be inappropriate for nursing home admission.

Linkages are developed by the center with other providers in Davidson County to provide services not offered by the center. Davidson County has over 24 home health agencies, 11 hospice and 20 assisted living providers. Although the residents will have a choice in health care providers, the following is a partial listing of providers the facility will work with to provide services not offered by the center.

Home Health Agencies

Amedisys Home Health
CareAll
HomeCare Solutions
NHC HomeCare
Willowbrook Home Healthcare Services
Gentiva

Hospice

Alive Hospice of Nashville
Caris Healthcare
Gentiva Hospice

Meals on Wheels

Area Meals on Wheels

Assisted Living Centers

Barton House
 Belmont Village
 Burton Court at Blakeford
 Maybelle Carter Senior Adult Community
 McKendree Village
 Morningside of Belmont
 Provision Living of Hermitage
 Richland Place
 Sycamores Terrace

Desired Outcome: The desired outcome is to ensure that discharges and/or referrals to non-institutional support services are available and coordinated in a timely manner for patients who no longer require nursing home care and for elderly inquiring at the center for services, but who are inappropriate for admission.

Consequently, transfer agreements are established between all relevant health care providers in the community.

Contractual relationships are established with local dentists, optometrists and other specialized physicians, in order to meet the needs of the patients.

A licensed pharmacist will be a member of the Pharmacy Committee, and a local pharmacy is awarded a contract to supply medications for the patients. If a patient does not wish to use the pharmacy with which the facility has contracted, the patient will have the choice of the pharmacy he chooses to use provided the pharmacy agrees to the mandates of the State regulations and the rules and regulations of the nursing home.

It is the intent of this facility to meet all the requirements of the TN Department of Health with regard to agreements, contractual arrangements and participation by health care professionals.

2. Describe the positive and/or negative effects of the proposal on the health care system. Please be sure to discuss any instances of duplication or competition arising from your proposal including a description of the effect the proposal will have on the utilization rates of existing providers in the service area of the project.

The Health Center of Hermitage, LLC is requesting the authority to relocate 90 beds approved in CN1306-022A. The results are seen to have positive effects for both the long-term care industry and the growing aging population in Davidson County.

National HealthCare Corporation is one of the largest providers of long-term care beds and services in the State of Tennessee, of which The Health Center of Hermitage, LLC is a subsidiary. The Health Center of Hermitage will be committed to providing the highest quality of care at maximum efficiency. Through the proposed project, NHC will continue with its commitment to improve both efficiency and care in Davidson County.

This project will serve as a needed relocation of services to the residents of Davidson County. The proposed project will serve as a referral source for home health agencies, doctors and area hospitals. This project will not have negative effects on the health care system of duplication or competition because 60 of the 90 requested beds are replacement beds and the 30 beds requested are supported by both the State's bed need formula in Davidson County, and the health care community that will make referrals and utilize the facility.

3. **Provide the current and/or anticipated staffing pattern for all employees providing patient care for the project. This can be reported using FTEs for these positions. Additionally, please compare the clinical staff salaries in the proposal to prevailing wage patterns in the service area as published by the Tennessee Department of Labor & Workforce Development and/or other documented sources.**

For over thirty years, NHC has been staffing and providing nursing home care in Davidson County. Staff salaries used in the financial projects are reasonable in comparison with prevailing wage patterns in the area. We know this to be true based on our ability to currently staff several nursing homes to the required levels in and around Davidson County as well as all of our other operations across the State of Tennessee and the other states we operate in presently. Wage and salaries used in the proforma projections are consistent with what is offered in other NHC centers in the market area and inflated forward to center opening. Surveys conducted by the Tennessee Department of Labor and Workforce Development by area allow NHC to remain competitive with staff salaries in comparison with prevailing wage patterns in the area.

Please see Attachment "Section C Economic Feasibility – 4" located on page 146 at the end of the application for the current and/or anticipated staffing pattern for all employees providing patient care for the project reported using FTEs for these positions.

Please see Attachment "Section III Contribution of Orderly Development – 3" located on page 158 at the end of the application for the for the comparison of the clinical staff salaries to prevailing wage patterns in the service area as published by the Tennessee Department of Labor & Workforce Development.

4. **Discuss the availability of and accessibility to human resources required by the proposal, including adequate professional staff, as per the Department of Health, the Department of Mental Health and Developmental Disabilities, and/or the Division of Mental Retardation Services licensing requirements.**

Please see Attachment "Section C Economic Feasibility – 4" located on page 146 at the end of the application for a listing of projected human resources required by the proposal per the licensing requirements of the Department of Health. Year two, the proposed project will require a total of 83.2 FTE's of which over half or 48.2 FTE's are in nursing. The applicant has had an approved CNA training program in-house and has the ability to staff the projected FTE increase based on its current staff and potential employees on file.

5. **Verify that the applicant has reviewed and understands all licensing certification as required by the State of Tennessee for medical/clinical staff. These include, without limitation, regulations concerning physician supervision, credentialing, admission privileges, quality assurance policies and programs, utilization review policies and programs, record keeping, and staff education.**

The applicant has reviewed and understands all licensing certification as required by the State of Tennessee for medical/clinical staff. Specifically, the applicant is familiar with the Rules of the Tennessee Department of Health, Board for Licensing Health Care Facilities, Chapter 1200-8-6, Standards for Nursing Homes.

6. **Discuss your health care institution's participation in the training of students in the areas of medicine, nursing, social work, etc. (e.g., internships, residencies, etc.).**

NHC has been in operation for over 43 years and is currently operating Richland Place, one of the most established centers in the Nashville market. The Health Center of Hermitage will surely generate a lot of interest from professional nursing personnel in the community. NHC recognizes that staffing shortages are an issue across the nation. Nevertheless, NHC has operated in the Davidson County since 1975 and based on that experience, does not expect to have a problem staffing the proposed project.

The anticipated medical personnel (FTE's) required for the replacement facility, at 78.58% occupancy in year two, during the three shifts, is as follows:

<u>Personnel</u>	<u>Total FTE's</u>
RNs	10.4 (includes DON & ADON)
LPNs	5.6
Aides/Orderlies	32.2

Staffing at long-term health care facilities is, of course, dependent on the availability of licensed and unlicensed personnel in the market area. While a review of the general market area of this facility indicates that NHC's recruitment efforts should have little impact on existing facilities, NHC has a company-wide policy to provide in-house education and incentive programs to assist in obtaining licensed as well as certified non-licensed personnel. Company strives to have each health care center owned or managed by NHC will have two partners attending nursing school under a scholarship program.

Secondly, NHC has identified areas in which there appear to be acute shortages of licensed personnel and in these areas has an active scholarship program at all 2 and 4-year nursing schools, as well as a recruitment effort with the graduating high school classes. This program, which was initiated in 1987, has attained excellent success. In addition to the educational push for licensed personnel, the Company operates a full in-house certification program for nurse aides and technicians. The program will be headed up by a registered nurse located in Nashville, Tennessee, concentrates on utilizing existing vocational schools and/or nonprofit groups to provide classroom space. Classes are run, on the average, every two months and reach a dozen or so potential nurse aides or technicians in each program. At the end of the course, the individuals who graduate are eligible to participate as certified nurse aides in all of the southeastern states, which have such certification courses.

Finally, the Company runs an intensive administrator-in-training program, which takes college graduates

and works them through a 24-month training program, learning every aspect of the management and administration of long-term health care centers. More than half of the company's administrators are presently graduates of this program. All in all, the company has the highest commitment to the continuing education of its partners and the recruitment of qualified outside individuals with intent to assist their educational activities to help meet the continuing health care needs of the aging population of America.

National HealthCare Corporation prides itself and owes much of its success to over 11,500 partners. NHC realizes that staffing of medical facilities across the country is becoming more of a problem. However, NHC has managed to avoid many of the staffing problems experienced by other operators by offering competitive salaries and extended benefits to all levels of personnel. The NHC philosophy is to operate as a team, with every job having equal bearing on our desired goal to provide the best possible long-term health care to the growing elderly population. All company partners are carefully screened for each job to ensure that the best possible placement. The company attitude toward all its partners along with competitive salaries and a friendly, secure, professional work environment has enabled NHC to attract the kind of team that has made it so successful for over forty three (43) years. NHC also has many strict requirements and company training programs (which are nationally recognized) that continue the level of expertise necessary to deliver state of the art nursing care. Consequently, NHC has an outstanding record for low staff turnover in the industry.

The Health Center of Hermitage draws nurses from the surrounding market area. Staff is often acquired from local advertising, recruitment at area colleges, and word of mouth from other partners. And as stated previously, applicants are drawn from resumes kept on file by NHC.

To provide access by health professional schools and behavioral research projects NHC has established the following:

Purpose: The purpose of NHC's established and proven recruitment plan is to recruit and maintain staff in a variety of disciplines necessary to meet the needs of residents, and provide high quality patient care. The recruitment plan is also used to eliminate and/or reduce reliance on nursing pool personnel and to recruit the highest quality personnel available in the area with the potential for career advancement and longevity. The beneficiaries of staffing retention are the patients that are provided with continuous, superior care.

Targeted Staff Categories: All staff categories, including nursing, social service, administration, dietary, housekeeping, laundry, and maintenance. Particular emphasis is placed on professional and non-professional nursing personnel. NHC has experienced its primary shortage of staff in nurses and nurse aides, and has targeted increased efforts toward the recruitment of personnel in these positions.

Methodology: This recruiting plan has been approved by the management of NHC and has been implemented in all 69 facilities owned and/or managed by NHC. The Health Center of Hermitage will use the following methods:

National HealthCare Corporation's philosophy whenever adding new beds is that the time and effort expended prior to opening in obtaining quality personnel is beneficial for both the company and the patients of the facility. Thus, considerable effort is used to recruit a staff for the facility that meets the following major criteria:

- 1) Each staff member is attuned to the National HealthCare Corporation philosophy of restorative nursing and emphasizing quality of life for our patients; and
- 2) To the extent possible, each staff member has a record of stable employment and a commitment to both the facility and the elderly. The Administrator is trained in the company Administrator program, and will likely be a member of the National HealthCare Corporation corporate staff for training for approximately two (2) years. NHC currently has (3) three Administrators in its training program. The Administrator and the corporate staff will tailor our Recruitment Plan to meet the local market. The goal of this plan is to put together a cohesive program of partner recruitment at the outset, which will enable the facility to select and recruit an initial staff, which will have not less than 40% partner retainage after five years.

In order to implement the Recruitment Plan and to recruit new partners after opening the facility, the following methods are used:

The recruitment plan is updated annually to account for changes in local market conditions. A great majority of staff personnel are recruited through traditional means, which include classified advertisements, word of mouth among existing staff members and within the community at-large, and through individuals approaching the facility on a walk-in basis to apply for employment. This method has been quite successful for NHC in attracting staff of varied disciplines to its facilities. National HealthCare Corporation owned and operated facilities enjoy an outstanding reputation in their communities and offer prospective partners an opportunity for growth and advancement while working for a quality nursing home operator in a clean, stable work environment at competitive wages.

Currently NHC includes the following recruiting incentives in its package:

Highly competitive wages	Non-partner Educational Loan Program
Tuition Reimbursement	Continuing Education Program (C.E.U.s)
Ongoing skills training	Earned Time Off
Group Life Insurance	Group Health Insurance (w/ Dental)
Company-Paid Retirement	Partner Stock Purchase Plan
Corporate promotions and recognition	

For nursing personnel, additional recruitment steps are taken to supplement those described above. The first step involves more intensified recruitment for the nurse aid positions to help alleviate shortages experienced within the state. NHC has begun an aggressive recruitment program in Tennessee for nurses and nurse aides aimed at the retired and semi-retired persons living within the service area of its facilities. The program involves both advertising and community outreach in order to invite this targeted group to visit the facility and explore opportunities in the geriatric nursing field. An advantage of this program is the availability of flexible hours, which conform to the needs of the prospective partner. NHC recognizes the retiree/semi-retiree as the largest untapped work force in the service area and in Tennessee as a whole, and desires to benefit from the broad experience, compassion, and understanding these people can bring to the patients and other staff at the facility.

The second step to aid in recruiting nursing personnel to the facility involves integration with the area's educational institutions. To assist with staff recruitment and promote community involvement, the facility will work within the community in the following manner:

- A. DON will serve with local advisory boards of Vocational Technical Schools. In addition, the facility will provide a classroom for Certified Nursing Assistant, Advanced Certified Nursing Assistant, and Home Health Aide Classes. This will provide NHC with an advantage for staff recruitment. Upon graduation from each step, partners are given a banquet dinner, certificates, and monetary raises.
- B. NHC has established relationships with the following educational institutions to aid in recruitment of qualified nursing personnel:

CNA Schools

CNT School

Nashville Area Technical School

Tennessee State Vocational College

LPN Schools

Tennessee State Vocational College

RN Schools

Middle Tennessee State University
 Tennessee State University
 Vanderbilt University
 Belmont University
 University of Tennessee
 Aquinas College
 Fisk University

Not only are top-notch applicants recruited from the above schools, but all major schools in the Southeast are include in our recruiting plans. Also, all state and national association meetings are well attended including an exhibit booth and display on recruiting. (This includes National meetings of Nurses, Registered Physical Therapists, Speech Pathologists and Occupational Therapists.

Responsible Positions: The overall recruitment plan is implemented initially by the facility's administrator who then reports and has input and output from the National HealthCare Corporation's corporate staff. On an ongoing basis, the Administrator working with department heads are responsible for recruitment. The DON is heavily involved in the recruitment of LPN's and RN's, as is the corporate staff.

Judy W. Powell, R.N., MS, is Senior Vice-President of Patient Services and is responsible for the overall plan of National HealthCare Corporation.

Desired Outcome: The desired outcome is to attract and maintain a full, stable, motivated staff capable of providing the level of patient care expected by the patient and Applicant alike and who respect and strive to maintain the dignity of each and every patient. Particular emphasis is placed on obtaining long-term partners.

Measure of Outcome: The outcome is measured by monthly data collected, maintained and reported in the monthly administrative meeting regarding manpower characteristics.

Specifically, the effectiveness of the Recruitment Plan is measured:

- 1) By the general success of the facility in staff recruitment;
- 2) By the partner turnover rate through either voluntary or involuntary dismissal;
- 3) By facility Quality Assurance and licensure ratings; and
- 4) By overall staff retention for various periods of time.
- 5) Hours of Nurse Registry used during the year.

An overall turnover of 40% of the facility's initial staff and 70% of its professional staff after five years is the goal of the program. Although at some times unavoidable, the use of nursing pool personnel is considered unacceptable and represents a failure of the Recruitment Plan.

Giving partners a choice of a primary care assignment enhances low nursing turnover. A primary care assignment consists of the same nurse and the same nursing assistant taking care of the same patients every day. Partners who do not wish a permanent assignment may choose to work "relief" assignments when primary-care partners are off.

Nursing Administration believes that this greatly improves the quality of continuity since partners who retain the same patients are much more aware of individual patients preferences. In addition, this enhances a bonding between patients, partners and patient families.

The Health Center of Hermitage will have 24-hour RN coverage.

7. (a) Please verify, as applicable, that the applicant has reviewed and understands the licensure requirements of the Department of Health, the Department of Mental Health and Developmental Disabilities, the Division of Mental Retardation Services, and/or any applicable Medicare requirements.

The applicant has reviewed and understands the licensure requirements of the Department of Health, and/or any applicable Medicare and Medicaid requirements.

- (b) Provide the name of the entity from which the applicant has received or will receive licensure, certification, and/or accreditation.

Licensure: licensed by the State of Tennessee to provide nursing home services

Accreditation: Not Applicable

If an existing institution, please describe the current standing with any licensing, certifying, or accrediting agency. Provide a copy of the current license of the facility.

Please see Attachment "Section III Contribution of Orderly Development – 7b" located on page 164 at the end of the application for a copy of the CON held by the applicant.

- (c) For existing licensed providers, document that all deficiencies (if any) cited in the last licensure certification and inspection have been addressed through an approved plan of correction. Please include a copy of the most recent licensure/certification inspection with an approved plan of correction.

Not Applicable.

9. Document and explain any final orders or judgments entered in any state or country by a licensing agency or court against professional licenses held by the applicant or any entities or persons with more than a 5% ownership interest in the applicant. Such information is to be provided for licenses regardless of whether such license is currently held.

Not Applicable, None.

10. Identify and explain any final civil or criminal judgments for fraud or theft against any person or entity with more than a 5% ownership interest in the project

Not Applicable, None.

11. If the proposal is approved, please discuss whether the applicant will provide the Tennessee Health Services and Development Agency and/or the reviewing agency information concerning the number of patients treated, the number and type of procedures performed, and other data as required.

If approved, the applicant will provide the Tennessee Health Services and Development Agency and/or the reviewing agency information concerning the number of patients treated, the number and type of procedures performed, and other data as required. The applicant files a Joint Annual Report Annually

PROOF OF PUBLICATION

Attach the full page of the newspaper in which the notice of intent appeared with the mast and dateline intact or submit a publication affidavit from the newspaper as proof of the publication of the letter of intent.

Please see "Attachment – Proof of Publication" located on page 165 and the "Letter of Intent" located on page 170 at the end of the application.

DEVELOPMENT SCHEDULE

Tennessee Code Annotated § 68-11-1609(c) provides that a Certificate of Need is valid for a period not to exceed three (3) years (for hospital projects) or two (2) years (for all other projects) from the date of its issuance and after such time shall expire; provided, that the Agency may, in granting the Certificate of Need, allow longer periods of validity for Certificates of Need for good cause shown. Subsequent to granting the Certificate of Need, the Agency may extend a Certificate of Need for a period upon application and good cause shown, accompanied by a non-refundable reasonable filing fee, as prescribed by rule. A Certificate of Need which has been extended shall expire at the end of the extended time period. The decision whether to grant such an extension is within the sole discretion of the Agency, and is not subject to review, reconsideration, or appeal.

1. Please complete the Project Completion Forecast Chart on the next page. If the project will be completed in multiple phases, please identify the anticipated completion date for each phase.
2. If the response to the preceding question *indicates that the applicant does not anticipate completing the project within the period of validity as defined in the preceding paragraph*, please state below any request for an extended schedule and document the "good cause" for such an extension.

Due to the project being developed and constructed at a location that will require rezoning, we are requesting the validity period be for a three (3) year period. While we believe the project may not take significantly more than two year to be licensed, in abundance of caution, and given the issue raised, we believe a request for an additional year to be prudent.

Form HF0004
Revised 05/03/04

PROJECT COMPLETION FORECAST CHART

Enter the Agency projected Initial Decision date, as published in Rule 68-11-1609(c): 07/23/14

Assuming the CON approval becomes the final agency action on that date; indicate the number of days from the above agency decision date to each phase of the completion forecast.

Phase	DAYS REQUIRED	Anticipated Date (MONTH/YEAR)
1. <u>Architectural and engineering contract signed</u>	<u>30</u>	<u>09/14</u>
2. <u>Construction documents approved by the Tennessee Department of Health</u> **	<u>330</u>	<u>08/15</u>
3. <u>Construction contract signed</u>	<u>480</u>	<u>11/15</u>
4. <u>Building permit secured</u>	<u>480</u>	<u>01/16</u>
5. <u>Site preparation completed</u>	<u>570</u>	<u>04/16</u>
6. <u>Building construction commenced</u>	<u>570</u>	<u>04/16</u>
7. <u>Construction 40% complete</u>	<u>690</u>	<u>08/16</u>
8. <u>Construction 80% complete</u>	<u>870</u>	<u>02/17</u>
9. <u>Construction 100% complete (approved for occupancy)</u>	<u>1020</u>	<u>06/17</u>
10. <u>*Issuance of license</u>	<u>1050</u>	<u>07/17</u>
11. <u>*Initiation of service</u>	<u>1050</u>	<u>07/17</u>
12. <u>Final Architectural Certification of Payment</u>	<u>1110</u>	<u>09/17</u>
13. <u>Final Project Report Form (HF0055)</u>	<u>1,200</u>	<u>12/17</u>

* For projects that do NOT involve construction or renovation: Please complete items
10 and 11 only.

Note: If litigation occurs, the completion forecast will be adjusted at the time of the final determination to reflect the actual issue date.

AFFIDAVITSTATE OF TennesseeCOUNTY OF Rutherford

MTA Passes

For your convenience, passes are available for purchase at Music City Central (400 Charlotte Avenue), online at nashvillemta.org, or by phone at (615) 862-5950.

In addition, passes may be requested via mail by sending the request to the MTA Administrative Office address.

All-Day Pass.....	\$5.25	7-Day Pass.....	\$24.00
All-Day Discounted Pass.....	\$3.25	31-Day Pass.....	\$84.00
All-Day Youth Pass.....	\$3.50	Discounted Pass.....	\$44.00
20-Ride Local.....	\$32.00	Quest 7-Day Youth Pass.....	\$16.00
20-Ride Express.....	\$42.00	Quest 31-Day Youth Pass.....	\$58.50
20-Ride Discounted Pass.....	\$17.00		

Cash, checks, money orders, and credit cards are accepted for these purchases. A shipping fee will be applied to all mail phone and online orders.

Express Upgrades: Deposit an extra 50 cents to use a 20-Ride Local Pass on an express bus.

For more information, please call MTA Customer Care at (615) 862-5950 or visit our website at nashvillemta.org.

♿ All MTA buses are accessible and equipped with bike racks.

Bus Stops

Most MTA bus stops are marked with a blue-and-white sign. If no bus stops are visible in the area where you wish to board, please go to the nearest intersection of the street traveled by your bus and flag the bus down when it comes into view.

Music City Central

The main transfer station is located at Music City Central (400 Charlotte Avenue).

Destination Signs

Every MTA bus is marked with a route number as well as the destination name or area. All express routes are designated by an "X," following the route number. If you have questions about where a bus is going, please ask the driver as you board.

Park & Ride

Several bus routes provide Park & Ride service, which allows you to park your car at no charge and ride an MTA bus. MTA passengers are permitted to use Park & Ride lots as complimentary services by owners of the lots.

Snow Routes

Be prepared for winter weather and pick up your MTA snow route brochure today. Snow route information may be found at MTA displays around town, on MTA buses, online at nashvillemta.org, or by calling Customer Care at (615) 862-5950.

Fares

Adult – Local, Airport & BRT line Services.....	\$1.70

Johnson + Bailey Architects P.C.

April 11, 2014

Mr. Bruce Duncan
National HealthCare Corporation
100 East Vine Street
Murfreesboro, TN 37130

Re: The Health Center of Hermitage

Dear Bruce:

Based upon a new construction total building area of 73,699 sq. ft. it is my opinion, based upon recently completed similar projects, that the total construction costs for the referenced project should be \$12,768,000 or approximately \$173.25 per sq. ft. exclusive of site development, equipment, and other soft costs.

The plans have been designed in compliance with the applicable building and life safety codes and to the requirements specified in the latest adopted edition of the Guidelines for the Design and Construction of Health Care Facilities.

Please advise if you require any additional information relative to construction costs for this project.

Sincerely,

JOHNSON + BAILEY ARCHITECTS P.C.

\$19,241,697

Dear Ms. Hill:

National HealthCare Corporation, a NYSE Amex publicly traded company with over \$81,000,000 of cash and cash equivalents, as stated in the December 31, 2013 10-K, will make available all the necessary funds for the operation and working capital for the above referenced project. These funds are available on immediate notice.

Should you have any further questions or comments, please advise.

Sincerely,

NATIONAL HEALTHCARE CORPORATION

Donald K. Daniel
Senior Vice President and Controller

The Registrant's definitive proxy statement for its 2014 shareholder's meeting

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

Board of Directors and Stockholders
National HealthCare Corporation

We have audited the accompanying consolidated balance sheets of National HealthCare Corporation as of December 31, 2013 and 2012 and the related consolidated statements of income, comprehensive income, stockholders' equity and cash flows for each of the three years in the period ended December 31, 2013. Our audits also included the financial statement schedule listed in the Index and Item 15(a). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of National HealthCare Corporation at December 31, 2013 and 2012 and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2013, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), National HealthCare Corporation's internal control over financial reporting as of December 31, 2013, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (1992 Framework) and our report dated February 21, 2014, expressed an unqualified opinion thereon.

REQUEST FOR RELEASE OF FUNDS
On or about April 28, 2014 the Metropolitan Development & Housing Agency is authorized by the Metropolitan Government of Nashville/Davidson County, TN to submit a request to the Department of Housing & Urban Development (HUD) for the release of Community Development Block Grant (CDBG) & Neighborhood Stabilization Program (NSP) Funds for the acquisition of five contiguous vacant lots located at 933-941 Jefferson Street. Affordable multi-family housing units will be developed on these lots.

FINDING OF NO SIGNIFICANT IMPACT
The Metropolitan Government of Nashville & Davidson County has determined this project to have a finding of "No Significant Impact on the environment. The Environmental Review Record (ERR) is on file at the Metropolitan Development & Housing Agency, 712 S. 6th St. and may be examined or copied M-F 7:30 am-4:30 pm.

PUBLIC COMMENTS
Any individual, group or agency may submit written comments on the ERR to the Metropolitan Development & Housing Agency's Community Development Department, the designated office for receiving and responding to comments. All comments received by April 25, 2014 will be considered by the Metropolitan Development & Housing Agency prior to the submission of a Request for Release of Funds (RROF).

REQUEST FOR RELEASE OF FUNDS (RROF)
The Metropolitan Government of Nashville & Davidson County certifies to HUD that Karl Dean, in his capacity as Mayor, consents to accept the jurisdiction of the Federal Courts if an action is brought to enforce responsibilities in relation to the environmental review process and these responsibilities have been satisfied. HUD's approval of the City's certification satisfies its responsibilities under NEPA and related laws and authorities, and allows the city to use or authorize the use of program funds for the purposes identified in this notice.

OBJECTIONS TO RELEASE OF FUNDS
HUD will accept objections to its RROF and the Metropolitan Government of Nashville & Davidson County's certification for a period of fifteen (15) days following the anticipated submission date or its actual receipt of the request (whichever is later) if they are on one of the following bases: a) the certification was not executed by the Certifying Officer or the Metropolitan Government of Nashville & Davidson County; b) the Metropolitan Government of Nashville & Davidson County has omitted a step or failed to make a decision or finding required by HUD regulations at 24 CFR Part 58; c) the City of Nashville has committed funds or incurred costs not authorized by 24 CFR Part 58 before approval of the RROF by HUD; d) another federal agency acting pursuant to 40 CFR Part 1504 has submitted a written finding that the project is unsatisfactory from the standpoint of environmental quality. Objections must be prepared and submitted in accordance with the required procedures of 24 CFR Part 58 and shall be addressed to the Department of Housing & Urban Development, 710 Locust St, Suite 300 Knoxville, TN 37902-2526. Potential objectors should contact HUD to verify the actual last day of the objection period. Karl Dean, Mayor of the Metropolitan Government of Nashville & Davidson County.

NOTIFICATION OF INTENT TO APPLY FOR A CERTIFICATE OF NEED

This is to provide official notice to the Health Services and Development Agency and all interested parties, in accordance with T.C.A. § 68-11-1601 et seq., and the Rules of the Health Services and Development Agency, that:

The Health Center of Hermitage, Nursing Home owned by: The Health Center of Hermitage, LLC with an ownership type of: Limited Liability Company and to be managed by: The Health Center of Hermitage, LLC intends to file an application for a Certificate of Need for: Change of Site/Relocation of 90 Beds approved by CN1306-22A from the original site located along Bell Road approximately 2 miles south of its intersection with I-40. The undeveloped property does not have an address. Its location is on the west side of Bell Road approximately 436 yards south of Woodland Point Drive and 600 yards north of Couchville Pike. The site is 13 acres with 650 feet of frontage in Nashville, (Davidson County), Tennessee.

The new proposed site is located on approximately 14.02 acres (shown as Tax Parcel 89.00 on Tax Map 087) at 4214 Central Pike, Davidson County Tennessee. The project, The Health Center of Hermitage, is to be certified for the Medicare participation. The project is not requesting any additional Nursing Home Beds. The estimated project cost is projected to be \$19,198,500. The anticipated date of filing the application is: April 15, 2014. The contact person for this project is Bruce K. Duncan, Assistant Vice President who may be reached at: National HealthCare Corporation, 100 Vine Street, 12th Floor, Murfreesboro, Tennessee 37130 615/690-2020. Upon written request by interested parties, a local Fact-Finding public hearing shall be conducted. Written requests for hearing should be sent to: Health Services and Development Agency

Andrew Jackson Building, 9th Floor
502 Deaderick Street
Nashville, Tennessee 37243

The published Letter of Intent must contain the following statement pursuant to T.C.A. § 68-11-1607(c)(1). (A) Any health care institution wishing to oppose a Certificate of Need application must file a written notice with the Health Services and Development Agency no later than fifteen (15) days before the regularly scheduled Health Services and Development Agency meeting at which the application is originally scheduled; and (B) Any other person wishing to oppose the application must file written objection with the Health Services and Development Agency at or prior to the consideration of the application by the Agency.

Wanted: A new job

When you want a change, find a new gig in The Tennessee Classifieds. Maybe you want a nice nine-to-five job with every weekend off. Maybe you want an outside sales job with a little independence. Every week, The Tennessee Classifieds help job-seekers find ways to do things they enjoy and (the best part) get paid for it. For that matter, the Classifieds can also help you find a hot new job - and even a stylish new place to come home to.

Also, please send us a copy of the notice and proof of publication (i.e. notary of publication). Please bill us for any cost incurred with regard to this request. Please send all correspondence to my attention at:

Bruce K. Duncan, National HealthCare Corporation, City Center, 100 Vine Street, 12th Floor, Murfreesboro, TN 37130.

I will need the proof of publication no later than April the 10th (FAX 615-890-0123), and the original mailed to me on the same day. Thank you for your prompt attention to this matter.

If you have any questions please do not hesitate to call me at 615-890-2020.

Sincerely,

NATIONAL HEALTHCARE CORPORATION

Bruce K. Duncan, Assistant Vice President
Director of Health Planning

RE: Certificate of Need Application CN1404-011, The Health Center of Hermitage
(Omission Response) Davidson County, TN.

Dear Mr. Grimm:

Enclosed please find the additional information to the above referenced CON application and supplemental request. This information has been submitted in triplicate

If there are any questions, please do not hesitate to contact me at 615-890-2020.

Sincerely,

NATIONAL HEALTHCARE CORPORATION

Bruce K. Duncan
Assistant Vice President & Authorized Representative for CN1404-011

OMISSION RESPONSES

TO

THE HEALTH CENTER OF HERMITAGE, LLC CON APPLICATION, CN1404-011

FOR A CHANGE OF SITE: THE HEALTH CENTER OF HERMITAGE

PREVIOUSLY APPROVED 90 BED NURSING HOME

DAVIDSON COUNTY

April 25, 2014

ATTN: MR. JEFF GRIMM, HSDA EXAMINER

1. Section A, Item 6 (legal Interest in the Site)

Review of the fully executed purchase agreement between the parties revealed that the applicant's legal interest in the site will be active through a closing date anticipated on or about October 31, 2014. However, review of the Limited warranty revealed otherwise, based on the absence of any signatures by the parties to the agreement. Please clarify by explaining why a limited warranty would not be appropriate as a means to protect the interests of the parties to the Purchase Agreement.

Legal Interest: Our contract provides for a 180 Inspection, Due Diligence, and Planning Period. We have the ability to extend that period for 120 days with a payment of \$15,000. NHC's control of the site extends until Dec. 30, 2014, if the extension is requested. The Limited Warranty Deed referred to is the "form" or example of the deed that will be used at closing. This reduces the possibility of a misunderstanding on the type of deed required at closing. Deeds are used at closing to transfer and establish ownership. The Purchase and Sale Agreement is the controlling document prior to closing.

2. Section A, Item 11 and Item 13

The response to Item 11 reflects that the 90 bed nursing home will not seek Medicaid provider certification; however, it appears that it will seek contracts with TennCare MCOs in Davidson County. Given the financial plans for a managed care payor mix that potentially accounts for approximately 20% of total projected patient days in Year 1 and 2, please discuss the plans for admission of Medicaid recipients in more detail.

The managed care payor mix projected in Year 1 and 2 is managed care for Medicare patients. The projection reflects no "Medicaid" managed care patients. Admission of Medicaid recipients would be done out of network, at negotiated rates, and have not been reflected in the proforma projections since such admissions are not expected to occur in great numbers.

3. Section B, Project Description, Item I

Please provide confirmation from an authorized management representative confirming that CN1306-022A, The Health Center of Hermitage, LLC, will be voluntarily surrendered if the application is approved.

I, Bruce K Duncan, as authorized representative for the referenced project and Assistant Vice President with National HealthCare Corporation, confirm that CN1306-022A will be voluntarily surrendered if and when CN1404-011 is approved and issued.

4. Section B, Project Description, Item II.A.

As reflected in the Letter of Intent, Section A, Item 9 on page 3 and Section B, Item 1 on page 5, the applicant seeks to relocate the 90 bed approved but unimplemented new nursing facility in CN1306-022A (The Health Center of Hermitage, LLC) from its current site Bell Road near Woodland Point Road and Couchville Pike in Nashville, TN (Davidson County) to a new site at 4214 Central Pike in Hermitage, Davidson County. In addition, the applicant provides a copy of the Oct 23, 2013 approval letter for CN1306-022A on page 164 of application. However, the applicant states that the project is for the relocation of the 90 beds approved in CN1107-024AME, The Health Center of Nashville, LLC, on pages 6 and 7 of this section. Please confirm that the project involves the relocation of the 90 beds approved in CN1306-022A.

The project involves the relocation of the 90 beds approved by CN1306-022A. Please see the attached revised pages 6 and 7 which correctly identify CN1306-022A as the CON at issue for the change of site.

Since CN1306-022A includes 60 of the 150 beds approved in CN1107-24AME, which, in turn, appears to be related to CN1002-007AVS (unimplemented and surrendered on or about November 1, 2011), it is suggested that the applicant provide a brief summary of the CON history that applies to the project focusing on this project's relationship to the CN1306-022A, CN1107-24AME and CN 1002-009AVS. The summary should include, at a minimum, the following information:

- 1) CON project number and project cost,
- 2) total size in square feet of proposed NF and # of licensed beds
- 3) proposed Medicare/Medicaid certification status,
- 4) proposed room mix (# semi-private and # private)
- 5) distance in miles and driving time from the proposed site at 4214 Central Pike in Hermitage to each of the related and approved CONs (note: please also provide a map that shows the locations of the nursing homes in the subject CON projects)

Please see the attached Table.

Project	CON Number	Project Cost	Square Footage	# Beds	Medicare/ Medicaid Beds	Room Mix	Driving Distance
The Health Center of Hermitage, LLC	CN1306-022A Bell Road & Woodland	\$20,142,000.00	70,054	90	90 Medicare	72 Private 4 Companion/Private 5 Semi-pvt	5.5 Miles 8 Minutes
The Health Center of Nashville, LLC (CON was modified on 10/23/13)	CN110724AME Hwy 100 & Pasquo Rd	\$21,512,150.00	77,408	90	45 Medicare 45 Medicare/Medicaid	90 Private	30 Miles 33 Minutes
The Health Center of Nashville, LLC (CON was surrendered upon issuance of CN110724A)	CN1002-009AVS Old Hickory Blvd	\$23,320,300.00	86,000	150	75 Medicare 75 Medicare/Medicaid	38 Private 82 Companion/Private 15 Semi-pvt	26 Miles 27 Minutes

April 25, 2014
12:26am

In the second paragraph on page 7, the applicant states that the facility will contain 73,699 square feet with 74 private rooms and 6 companion rooms/private rooms (# rooms totals to a maximum capacity of 86 beds). These amounts differ from the 74,699 SF facility in the Square Footage Chart on page 10 and the number of rooms needed to house a total of 90 beds (as shown on page 3 in the bed complement table or in the floor plans on pages 49 - 55). Please clarify.

Please note that the 74,699 SF number found in the Square Footage Chart on page 10 includes a 1,000 SF, Item E, for a Maintenance Building. As the Maintenance building is separate from the healthcare center building, the narrative reflected in page 7 addresses the square footage in the "facility" or patient care building only, minus the 1000 Sq. ft. exterior maintenance building.

Please see the floor plans attached to Supplemental Question 6 for a revised floor plan correctly totaling to 90 beds.

How is the 14 acre property zoned? If residential, and restrictions exist, please discuss plans to rezone to "Mixed Use" or "Specific Plan" classifications, as appropriate. Does the applicant's recent experience with rezoning to Specific Plan designation for the 90 bed facility approved in CN1107-024AME (to be constructed in western Davidson County) have any implications for the development of this nursing home in Hermitage?

The property is zoned single family residential. We have had several meetings with Metro Planning and they have agreed that we should make an application to rezone the property using a *regulatory specific plan* NOT a *specific plan*. The former does not require engineered site plans, building elevations, and other technical details. The regulatory SP allows us to deal with uses not project details. We will be able to save 30-60 days by not having to go the Specific Plan route because we don't have to provide building and site plan details. This may change as we go thru the rezoning process but right now we are very optimistic about this approach. The previously mentioned rezoning effort was well received by the Metro Planning Staff. Our professionalism, team strength, and NHC's product made that a relatively painless/non-controversial project for Staff which I'm sure they appreciated.

5. Section B, Project Description, Item II.B., Item II.C and Item II.D.

Item II.B.: The description on page 9 refers to relocating the 90 beds approved in CN1107-24A, The Health Center of Nashville, LLC, in lieu of the 90 beds approved in CN1306-022A, The Health Center of Hermitage, LLC. Please revise the statement to reflect that the project involves the relocation of the 90 bed nursing home approved in CN1306-022A.

Please see the attached revised page 9.

It appears that the new construction building footprint will increase slightly in size from 71,054 square feet to 74,699 square feet reflected in the Square Footage Chart on page 10. Please compare to the amounts provided in the Square Footage Chart of the original facility proposed in CN1306-022A. As a suggestion, the applicant could simply show a side by side comparison using a modified SF Chart as a template with entries for Current, CN1306-022A and Proposed, CN1404-011.

Please see the attached Square Footage Table which compares square footage found in CN1306-022A with the proposed square footage in CN1404-011.

A. Unit / Department	Square Footage		
	CN1306-022A	CN1404-011	Difference

Life Care- Hickory Woods								
McKendree								
TOTAL								

Please see the attached Table with the requested information.

Item II.C:

Please revise the reference to reflect that the project proposes relocating the 90 beds approved in CN1306-022A.

Please see the attached revised page 11.

Item II.D:

Please revise the reference to reflect that the project proposes relocating the 90 beds approved in CN1306-022A.

Please see the attached revised page 11.

Using population and nursing home licensed bed data from the Tennessee Department of Health, please complete the following table to help illustrate the need to change location of the new 90 bed facility. Please note that the table is quite similar to what was provided in CN1306-022A to help illustrate the need for the project.

65+ Nursing Home Beds/1,000 Population Within a 10-Mile Radius

Location	Year1 (2017) Population	2017 age 65+ population	2014 total nursing home beds within 10 mile radius	2017 Medicare SNF and dually certified beds within 10 mile radius	2017 nursing home beds per 1,000 age 65+ population	2017 Medicare SNF and dually cert beds per 1,000 age 65+ population
CN1404-011, Health Center of Hermitage						
CN1107- 024AME, Health Center of Nashville						
Davidson County						

Please see the attached Table with the requested information.

2017 Medicare SNF and Dually certified beds based on 2012 JAR Annual Reports. Includes CN1107-024AE and CN1401-011 certified beds.

*774 beds consist of the following facilities located in Davidson County. Health Center of Nashville (90), The Meadows (113) West Meade Place (120), Woodcrest at Blakeford (83), Greenhills Health & Rehab (150), Richland Place (107), and Crestview Nursing Home (111)

*1,160 beds consist of the following facilities located in Davidson County. Health Center of Hermitage (90 CON beds), Donelson Place (124), Good Samaritan Health (110) Lakeshore Heartland (66), Life Care Hickory Woods (124), Life Care of Old Hickory (124), McKendree (150 + 30 CON Beds), Madison Healthcare & Rehab (102) and Trevecca Health Care (240 beds)

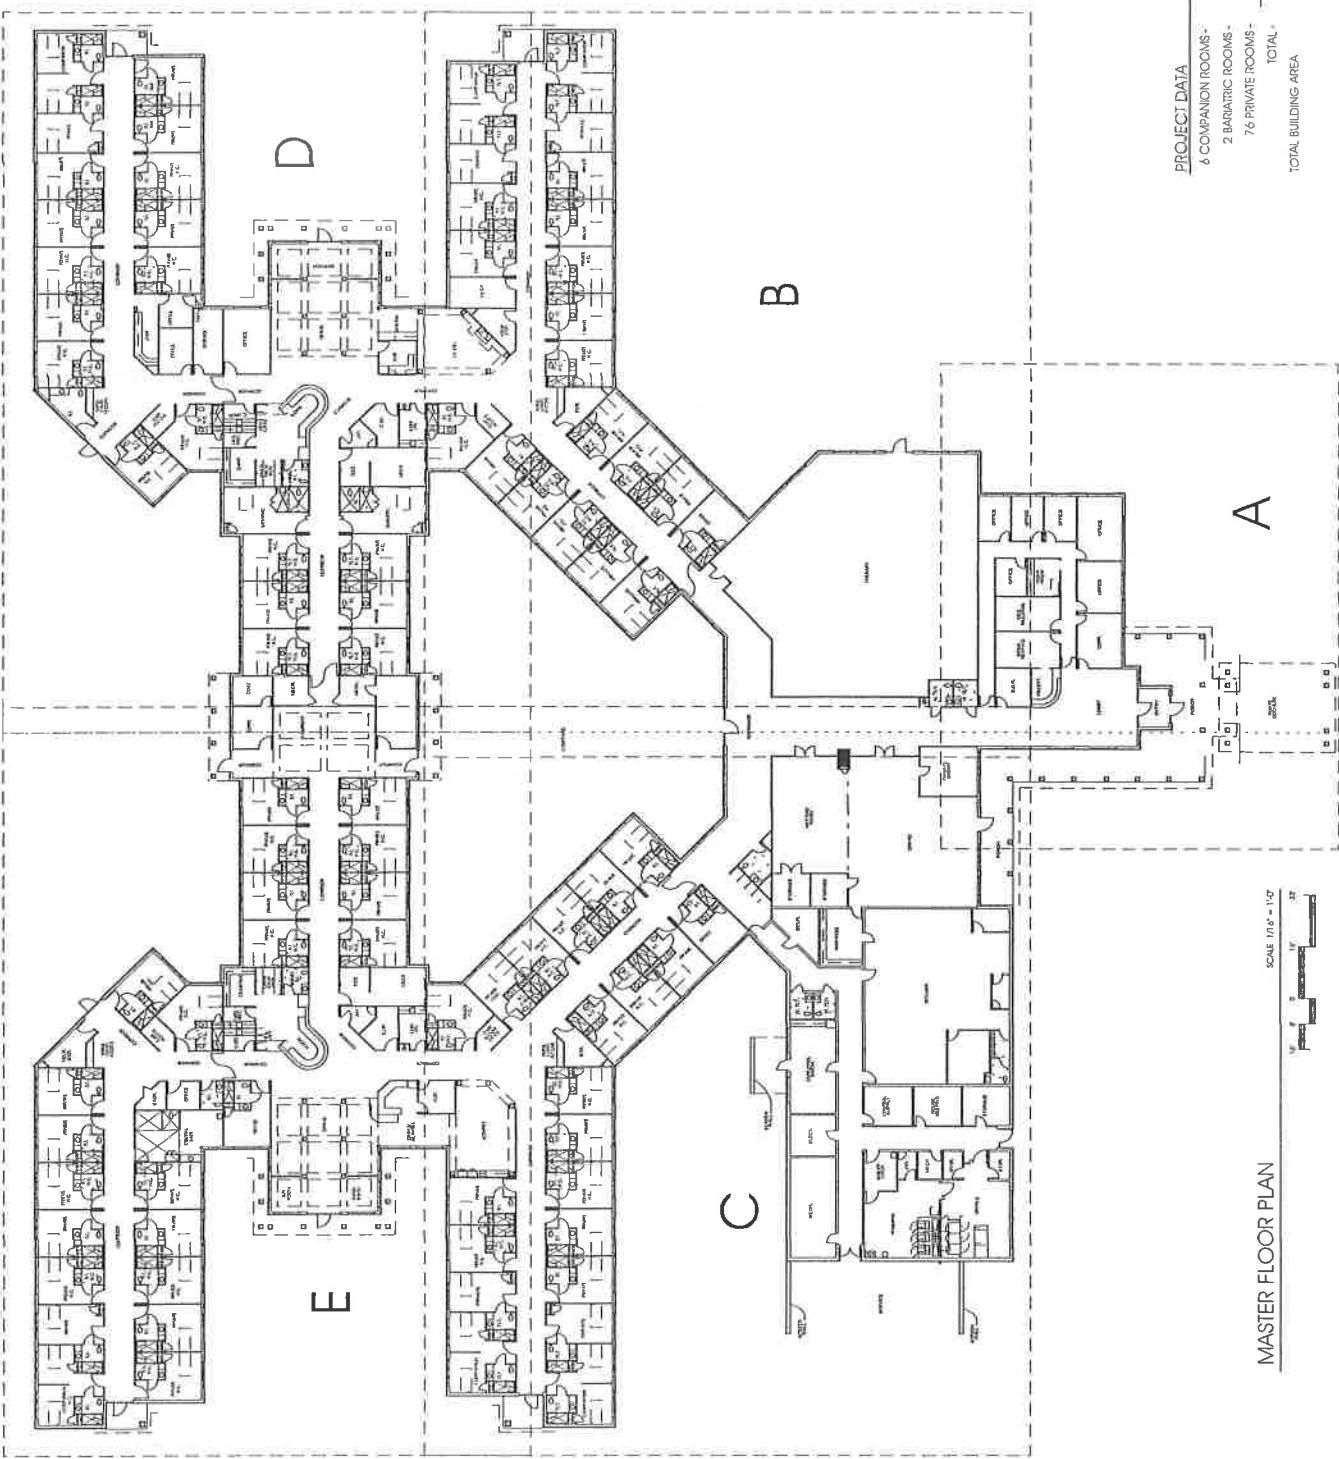

6. Section B, Project Description, Item IV. (Floor Plan)

As noted in Section B, Item I, the applicant mentions 74 private rooms and 6 companion rooms/private rooms which could only account for a maximum capacity of 86 beds in lieu of the 90 beds proposed for the project & approved in CN1306-022A. Please confirm that the floor plans identify the location of all 90 beds.

Please see the revised floor plan which correctly identifies the 90 proposed beds. Please note the issue was that 2 bariatric beds correctly identified on the floor plan were left off the Project Data table.

7. Section C., Need, Item I.a. (Service Specific Criteria)

Please note that the justification for the Nursing Home Services project specific criteria was addressed in the applicant's approved and unimplemented Certificate of Need, CN1306-022A (*as approved at the September 25, 2013 Agency meeting*). As a result, the applicant's responses for the criteria specified for the State Health Plan, "Five Principles for Achieving Better Health" plus the criteria for "Construction, Renovation, Expansion and Replacement of Health Care Institutions" will apply to this application.

In consideration of the principle of Access in the State Health Plan, please also discuss how the Long-term Care Community Choices Act of 2008 has impacted nursing home utilization rates in Davidson County for the most recent 3 consecutive year periods. The Long-term Care Community Choices Act of 2008 allows TennCare to pay for more community and home-based services for seniors such as household assistance, home delivered meals, personal hygiene assistance, adult day care centers and respite.

Even though the proposed project does not anticipate being TennCare/Medicaid certified, the impact of the Choices Act may be impacting the availability of beds that are dually-certified for Medicare skilled patients. Please discuss.

It is hard if not impossible to quantify the impact the Long-term Care Community Choices Act of 2008 has had on nursing home utilization rates in Davidson County for the simple reason that the data has not been made available by TennCare. But it is reasonable to say that the Choices Act has contributed to a decline in nursing home occupancy specifically in the number of patients receiving intermediate care. Home and community based services are not targeted at skilled level patients nor have they contributed to a decline in skilled Medicare days and services. In fact, Medicare and other third party payment source census has increased since the Choices Act was enacted.

8. Section C, Need, Item 4.A.

The response is noted. The amounts shown in the two tables for the population for Davidson County (total population and age 65+ population) for CY2014 and CY2016 are different even though the source appears to be the same. Please clarify.

Please see the attached revised page 27 from the CON which reflects the 2013 population numbers, source attached as well.

Per the ESRI Dominant Tapestry Lifestyle Map in the attachments, it appears that the dominant segment in the proposed location in Hermitage is Level 28 – aspiring young families. What impact will this have on the project in attracting seniors to the facility at its new location?

Please note that the Tapestry Segmentation represents 66 groupings of neighborhoods based on socioeconomic and demographic composition, these groupings are discussed in a 68 page source paper. The map referenced combines those groups into twelve “LifeMode” groups. Even though the proposed site borders young households, it is also in close proximity to upper income, well educated, married couple homeowners. Nevertheless, the driving force for our center admissions will be referrals coming directly from the Tri Star Summitt Hospital.

2013 Revision (6/13)

9. Section C., Need, Item 5

As an update to the applicant's last review in CN1306-022A, please describe the status of any licensure activities such as the inactive status of 165 licensed bed Imperial Garden effective May 2013.

Please note that the information submitted with CN1404-011 reflects the current status of the licensed and inactive licenses in Davidson County at the time of filing. Specifically, the need calculations found on page 20 account for all nursing home beds whether licensed, inactive or held in CON state. In addition, Imperial Garden is referenced on page 31 as Creekside Health & Rehab Center, f/k/a Imperial Garden, in the inventory on page 65, and again on page 77 with the date of its survey on 1/15/14 where they had six deficiencies. That public information is the extent of the knowledge the applicant has regarding Imperial Garden.

Please explain in detail why the change in location would not have an adverse impact to other sites, such as those located within 10 miles of the proposed facility in Hermitage.

The reality of the situation is this, the need for nursing home beds in Tennessee is determined on a "county level" basis. Two thirds of the beds which are the subject of this CON, or 60 of the 90 beds are replacement beds with 30 beds being from the 2012-2013 bed pool. All 90 beds granted by CN1306-022A were unanimously approved at the 10/23/13 HSDA meeting. While changing the site will move the facility closer to some providers, it will at the same time, move the CON away from others that were closer to the original CON site. Specifically, the proposed new CON site has 180 fewer beds within a ten mile radius than the existing CON site. In terms of drive time, in the Table that was requested as part of this Question, only three (3) centers are within ten miles of this new CON site in Davidson County. However, reference to a 10 mile radius is also not a specific criteria used to measure impact on existing providers.

The chart of nursing homes in Davidson County with current licensed beds and 3 year utilization trend is noted. Please add a column to the chart that identifies the approximate distance in miles to the applicant's proposed facility in Hermitage.

Please see attached requested Table.

Nursing Homes	Driving Distance in miles to CN1404-011	2014 Licensed Beds	2010 Patient Days	2011 Patient Days	2012 Patient Days	2010 Licensed Occupancy	2011 Licensed Occupancy	2012 Licensed Occupancy

Source: 2010 - 2012 JAR

* Formally Imperial Gardens Health & Rehabilitation (Change occurred in 2013).

2010 - 2012 Patient Days and Occupancy is based on JAR filings by Imperial Gardens (165 beds). Please note, Imperial Gardens only reported 117 resident days of care for 2011.

** Life Care Center of Hickory Woods was licensed on 10/25/11.

Life Care Center of Old Hickory Village was licensed on 5/3/12.

Signature Healthcare of Nashville was licensed on 1/17/13.

2012 Occupancy of 84.1% is Less Jackson Park, Life Care Center of Old Hickory Village, Life Care Center of Hickory Woods and Signature Healthcare.

10. Section C, Need, Item 6

Your response to this item is noted as Section C, Need, Item 5. However, please renumber to reflect that it pertains to Section C, Need, Item 6.

Please see attached revised page with the new number.

In addition to the projections provided in the attachment, please complete the following table:

The Health Center of Hermitage Projected Utilization

Year	Licensed Beds	SNF Medicare and dually certified beds*	SNF Medicare ADC	Medicaid Level II ADC	SNF All other Payors-ADC	Medicaid Level I ADC	All other Payors Non-skilled ADC	Total Facility ADC	Licensed Occupancy %
2017	90	90	6.99	None	4.96	None	11.96	23.91	26.57
2018	90	90	20.68	None	14.68	None	35.36	70.72	78.58
2019	90	90	25.0	None	17.75	None	42.75	85.50	95.00

* includes both Medicare only SNF beds and SNF/NF dually-certified beds

The detailed charts noting how the proposed project is projected to ramp up is noted. Please provide a narrative response that provides some details on how the applicant expects the rate of growth to take place, e.g., surveys or letters from referral sources, etc.

We expect the center to have no problem filling its beds to capacity in the amount of time proposed, in fact we believe the projections to be conservative. NHC's relationships with Summit Medical Center (please see support letter from Jeff Whitehorn) and the volume of discharges they have on a yearly basis, and the past relationship NHC has had with Summit in our managing of McKendree Village's health center and their skilled rehab unit. In addition, NHC have close professional ties and relationships with the hospitals in the downtown Nashville area and routinely admit patients from these hospitals daily (St. Thomas, Baptist, Centennial, Vanderbilt, Southern Hills just to name a few).

NHC has community ties with area churches in the Hermitage area, and has worked with several hospice companies who utilize facilities, such as the one we are proposing, to assist with the care for individuals who are receiving comfort care services and require in-patient care or respite care (Caris, Alive, Odyssey, just to name a few)

In addition, there are a multitude of independent living and assisted living facilities within a 10-15 mile radius of our proposed health center location, and NHC has a longstanding relationship with these businesses through our relationships with managing McKendree Village, and through NHC HomeCare which has served the Hermitage/Mt. Juliet/Lebanon area.

The proximity of the location of our center in the Hermitage area is near I-40 which will also make us an attractive option for individuals who live in the area, as well as individuals coming from Donelson, and the greater downtown Nashville area.

Please see the attached support letters, gathered from the community for the original 90 bed project, for a 90 bed center to be built in Hermitage.

Ms. Melanie Hill, Executive Director
State of Tennessee
Health Services and Development Agency
181 Rosa L. Parks Blvd., 3rd Floor
Nashville, TN 37243

Dear Ms. Hill:

This letter expresses my support for NHC at The Health Center at Hermitage's CON application for the relocation of 60 beds and the addition of 30 beds for a new 90 bed skilled facility. NHC is filing its CON based on Davidson County's projected skilled bed need. I am the CEO of Summit Medical Center in Davidson County and given my experience in the local market, I believe these additional skilled nursing beds will be needed to accommodate our county's growing aging population. Even today, skilled referrals can be difficult to place and often require patient delays in our acute care facilities.

Given NHC's excellent history, these residents will receive the highest quality of care. I ask you to favorably consider this proposal.

If you have any questions, please do not hesitate to call me.

Sincerely,

Jeffrey T. Whitehorn, FACHE
Chief Executive Officer

Dear Ms. Hill:

Please accept this letter as my support for NHC at The Health Center at Hermitage and its plans for the relocation of 60 beds and the addition of 30 beds for the construction of a new 90 bed skilled facility.

NHC is filing this CON based on the bed need projection for additional skilled beds in Davidson County. We need to meet the demands of our senior population with quality care and NHC is a great resource.

NHC is to be commended for their care and for their future commitment of creating more housing to meet the aging senior's needs. I wish NHC well in the fulfillment of its mission of care for the elderly.

Sincerely,

A handwritten signature in black ink, appearing to read "Tim Scarvey", with a large checkmark at the end.

Dear Ms. Hill:

It has been brought to my attention that a 498 nursing home bed need will exist by 2015 in Davidson County for additional skilled beds. I am told that skilled Medicare beds can often be difficult to find when needed in the community. NHC is responding to this need by requesting CON approval for the relocation of 60 beds and the addition of 30 beds for a new 90 bed skilled facility.

I urge you to approve NHC's request to construct a 90 skilled bed nursing facility to service the residents of Davidson County.

Sincerely,

A handwritten signature in cursive script that reads "Douglas Henry".

Dear Mrs. Hill:

The following letter is in regard to my enthusiastic support for NHC/Maury Regional Transitional Care Center to replace and relocate 112 nursing facility beds in Maury County. As a physician practicing in Maury County, I am aware of the great need for such a facility. As you know, a large percentage of the population in this county is comprised of the elderly. Such a facility would be an asset and would fulfill a need for the elderly and their families.

Thank you very much in advance for your attention and cooperation in this matter.

Sincerely,

A handwritten signature in cursive script that reads "Sheila Butt".

Dear Ms. Hill:

Due to the increase of persons in need in the congregation here at Hermitage United Methodist Church, I would like to request that NHC at The Health Center at Hermitage be granted the CON for the plan to relocate 60 beds and the addition of 30 beds for the construction of a new 90 bed skilled facility.

NHC is filing this CON based on the bed need projection for additional skilled beds in Davidson County. We need to meet the demands of our senior population with quality care and NHC is a great resource.

NHC is to be commended for their care and for their future commitment of creating more housing to meet the aging senior's needs. I wish NMHC well in the fulfillment of its mission of care for the elderly.

Sincerely,

A handwritten signature in cursive script that reads "Allen R. Black".

What are the major changes to the applicant's projected referral sources due to the proposed 5 mile relocation from the current Bell Road, Nashville, TN location in Davidson County?

There are no major changes to the projected referral sources due to the relocation. In fact, we are moving closer to our main referral source which supports this project.

11. Section C, Economic Feasibility, Item 1 (Project Cost Chart)

The chart contains an entry for \$605,900 of moveable equipment. Please identify the key equipment included and identify any equipment at \$50,000 or greater.

Moveable Equipment-This category includes pieces of furniture (patient room beds, chairs, dining room tables, etc) none of which cost \$50,000 individually.

13. Section C, Economic Feasibility, Item 9

The projected payor mix is noted. What amount is projected, if any, for revenue from services provided to Medicaid recipients through the applicant's out-of-network contracts with the TennCare MCOs identified on page 4 of the application?

Please clarify if the anticipated Medicare revenue includes crossover claims reimbursed by TennCare. Medicare crossover payments are normally made by the Bureau of TennCare separately from the Managed Care Contractors. Medicare crossover claims are claims that have been submitted to the Bureau of TennCare for Medicare cost sharing payments after the claim has been adjudicated by Medicare and paid by Medicare and Medicare has determined the enrollee's liability.

The projection reflects no "Medicaid Managed Care Patients". Thus, there is no projected revenue from services provided to Medicaid recipients through the applicant's out of network contracts with TennCare MCO's.

Anticipated Medicare revenue does not include crossover claims reimbursed by TennCare. This 90 bed project will not participate in the Tennessee Medicaid program, thus this 90 bed project will not bill TennCare for services or seek reimbursement from TennCare.

14. Section C, Orderly Development, Item 2

The response is noted. As noted previously, the statement regarding relocating 60 beds and adding 30 beds does not apply to this project. Please revise to reflect that the project applies to the relocation of the 90 bed nursing home approved in CN1306-022A at the September 23, 2013 Agency meeting.

Please see the attached revised page.

15. CON Progress Reports of Affiliated Facilities

According to HSDA records, there are several outstanding Certificate of Need (CON) projects of facilities related through ownership to the applicant's parent company such as NHC at Indian Path, CN121-059A, The Health Center at Nashville, CN1107-022A and NHC Healthcare-Sumner, CN1108-029A. Please provide a brief progress report and/or annual progress report, as appropriate, for these outstanding CONs.

Various status reports- Indian Path/Kingsport-under construction; The Health Center of Nashville (Place at the Trace)-construction plans (98% complete) and site work to start in 60-90 days; and Sumner-under construction.

SUPPLEMENTAL
#2

APR 28 '14 4:10:17

1. Section B, Project Description, Item II.A.

Confirmation that the project involves the relocation of the 90 beds approved in CN1306-022A is noted for this item and other related questions of the supplemental response. However, please note that page 6 of your response includes a reference to 74 private rooms and 6 companion rooms in lieu of the clarification provided in the revised floor plans and page 53 of the supplemental response (both of these items identified 76 private rooms, 2 bariatric rooms and 6 companion rooms). Please correct the reference to the room/bed mix and provide by revising page 7 of the application. a revised page for this item

Please see attached page with corrected room reference.

In your response, it may be helpful to further illustrate & confirm the room/bed mix for this project, CN1404-011, by adding a row to the table you provided on page 8 that includes the following information:

- 1) CON project number and project cost,
- 2) total size in square feet of proposed NF and # of licensed beds
- 3) proposed Medicare/Medicaid certification status,
- 4) **proposed room mix (# semi-private and # private)**
- 5) distance in miles and driving time from the proposed site at 4214 Central Pike in Hermitage to each of the related and approved CONs (note: please also provide a map that shows the locations of the nursing homes in the subject CON projects)

Please see the attached revised Table now including CN1404-011 information.

site allows for a more efficient use of property and is less expensive resulting in \$220,000 in savings.

The new nursing facility will be a single story structure which has been designed to meet all current Life Safety Codes. The center will contain 73,699 square feet and have many ancillary patient areas for center operations such as kitchen, therapy suite for physical, speech and occupational therapies, laundry and administrative offices. The center will have 76 private rooms, two (2) bariatric beds each located in a private room and 6 companion rooms/private rooms with two persons sharing a full bath. The center will also include dining and activity rooms and central bathing. Full ancillary areas to be constructed include Physical, Speech, Occupational Therapy, Laundry, Activity rooms and Dining Rooms and administrative offices. The center has been designed to provide state of the art care in a comfortable environment.

The Health Center of Hermitage should be granted the relocation CON for the following reasons: NHC has a long history of providing quality long term care services in Davidson County. The relocation of the 90 beds approved by CN1306-22A will help local residents in need of post-acute care services find them. The project is financial feasible (see proforma projections), and lastly, it promotes the orderly development of the existing health care system in that it relocates existing approved beds to an area of need without adding new beds and capacity to the county and service area. The Health Center of Hermitage, LLC is also supported by the community

SERVICES:

- a. Nursing Services: Licensed (RN's and LPN's) and ancillary nursing personnel will serve patients and in emergencies, area residents. In recognizing the critical role qualified nursing assistants play in the care of patients, NHC has established a pilot program with levels of certified nurse assistants (CNA).
- b. Rehabilitation Services: The center will provide physical, occupational, speech and recreational therapy services according to physician's orders as part of a rehabilitation program. These services are also available to all residents of the service area (outpatient) as part of the applicant's continuum of care.
- c. Dietary Services: All special diet needs will be met and proper nourishment will be provided at all times. NHC has implemented (and is the only long-term health care chain to do so) an American Dietetic Association-approved Dietetic Internship program whereby dietitians are chosen to train in the three major areas of dietetics within the long-term health care setting: administrative, clinical and community dietetics with an emphasis on the treatment of geriatric nutritional problems. Internists also receive training in hospitals and community health centers. Upon graduation and completion of exams, they become licensed and certified dietitians. NHC's goal is to place an ADA Dietitian in each NHC facility.
- d. Medical Director: A local physician will be employed as medical director on a consulting basis and will be available to attend to needs of our nursing home patients.
- e. Consultant Services: Advice and instructions is sought from health care professionals, including dietitians, pharmacists, gerontologists, therapists, and social workers.
- f. Housekeeping & Janitorial Services: Housekeeping and janitorial services will be provided to insure that services are rendered to patients in a clean, attractive, well-maintained and comfortable atmosphere.

LETTER OF INTENT TENNESSEE HEALTH SERVICES AND DEVELOPMENT AGENCY

The Publication of Intent is to be published in the Tennessean which is a newspaper
(Name of Newspaper)
of general circulation in Davidson, Tennessee, on or before April 10, 20 14,
(County) (Month / day) (Year)
for one day.

=====

This is to provide official notice to the Health Services and Development Agency and all interested parties, in accordance with T.C.A. § 68-11-1601 *et seq.*, and the Rules of the Health Services and Development Agency, that:

The Health Center of Hermitage Nursing Home
(Name of Applicant) (Facility Type-Existing)

owned by: The Health Center of Hermitage, LLC with an ownership type of Limited Liability Company
and to be managed by: The Health Center of Hermitage, LLC intends to file an application for a Certificate of Need
for: Change of Site/Relocation of 90 Bed's approved by CN1306-22A from the original site located along Bell Road approximately 2 miles south of its intersection with I-40. The undeveloped property does not have an address. Its location is on the west side of Bell Road approximately 436 yards south of Woodland Point Drive and 600 yards north of Couchville Pike. The site is 13 acres with 650 feet of frontage in Nashville, (Davidson County), Tennessee. The new proposed site is located on approximately 14.02 acres (shown as Tax Parcel 89.00 on tax Map 087) at 4214 Central Pike, Hermitage, Davidson County Tennessee. The project, The Health Center of Hermitage, is to be certified for the Medicare participation. The project is not requesting any additional Nursing Home Beds. The estimated project cost is projected to be \$19,198,500.

The anticipated date of filing the application is: April 15, 20 14

The contact person for this project is Bruce K. Duncan Assistant Vice President

**CERTIFICATE OF NEED
REVIEWED BY THE DEPARTMENT OF HEALTH
DIVISION OF POLICY, PLANNING AND ASSESSMENT
615-741-1954**

DATE: June 30, 2014

APPLICANT: Health Center of Hermitage
4214 Central Pike
Hermitage, Tennessee 37076

CN1404-011

CONTACT PERSON: Bruce Duncan
National HealthCare Corporation
100 Vine Street
Murfreesboro, Tennessee 37130

COST: \$19,241,697

In accordance with Section 68-11-1608(a) of the Tennessee Health Services and Planning Act of 2002, the Tennessee Department of Health, Division of Policy, Planning, and Assessment, reviewed this certificate of need application for financial impact, TennCare participation, compliance with *Tennessee's State Health Plan*, and verified certain data. Additional clarification or comment relative to the application is provided, as applicable, under the heading "Note to Agency Members."

SUMMARY:

The applicant, Health Center of Hermitage, located 4214 Central Pike, Hermitage, (Davidson County) Tennessee, seeks Certificate of Need (CON) approval for a change of site/relocation of 90 beds authorized by CN1306-022A. The current site is located at Bell Road and Woodland Point Drive in Hermitage, Tennessee.

This application has been placed on the Consent Calendar. Tenn. Code Ann. § 68-11-1608 Section (d) states the executive director of Health Services and Development Agency may establish a date of less than sixty (60) days for reports on applications that are to be considered for a consent or emergency calendar established in accordance with agency rule. Any such rule shall provide that, in order to qualify for the consent calendar, an application must not be opposed by any person with legal standing to oppose and the application must appear to meet the established criteria for the issuance of a certificate of need. If opposition is stated in writing prior to the application being formally considered by the agency, it shall be taken off the consent calendar and placed on the next regular agenda, unless waived by the parties.

The applicant is requesting approval for the change of site for the following reasons.

- Location—The new proposed site is located along Central Pike, a 2 minute as opposed to 9 minutes from the Bell Road site.
- Engineering—The Bell Road site has been determined to offer significant engineering challenges. The site is situated approximately 40-50 feet above Bell Road and would require a 600 foot driveway with a 7% grade. Additionally, the original site on Bell Road would require substantial grading which engineering studies indicate having to blast 100,000 cubic yards of rock and haul off 75,000 cubic yards. Blasting and haul off would add \$856,000 to the budget. The Bell Road site would also require substantial retaining walls adding another \$545,000. All in all, the Bell Road site would add another \$1,000,000 to the projects final cost.

- Price-The proposed Central Pike site I also less expensive than the Bell Road original site. The new contract purchase site is \$78,571/ac compared to \$150,000/ac for the Bell Road site. This site will result in \$220,000 savings.

The new nursing facility will have 74 private rooms and 6 companion/private rooms with a construction cost of \$142.920 per bed and \$213.797 per bed of total project costs..

The Health Center of Hermitage, LLC has one member, NHC/OP, L.P. NHC/OP, L.P. owns 100% of The Health Center of Hermitage, LLC NHC/OP, L.P., also owns 100% in other nursing facilities in various states. The applicant provides information regarding ownership in Attachment Section A, Applicant Profile - 4 Type of Ownership or Control.

The total estimated project cost is \$19,241,697 and will be funded through cash reserves as indicated in a letter from the Senior Vice President and Controller of NHC in Section C-Economic Feasibility-2.

GENERAL CRITERIA FOR CERTIFICATE OF NEED

The applicant responded to all of the general criteria for Certificate of Need as set forth in the document *Tennessee's State Health Plan*.

NEED:

The applicant's service area is Davidson County. The total population for 2014 is 656,385 increasing to 682,330 in 2018, an increase of 4.0 percent. The age 65 and older population for 2014 is 74,375 increasing to 85,594 in 2018, an increase of 15.1 percent.

The proposed project seeks the relocation of a 90-bed nursing home granted by CN1107-24A. The applicant seeks to changes the site because of the cost and engineering challenges at the Bell Road site. The proposed new site is a better location, allows for more efficient building layouts, and is less expensive to purchase and develop.

TENNCARE/MEDICARE ACCESS:

The applicant will participate in the Medicare program. Gross revenue for Medicare is projected to be \$1,258,389 or 37.16%, Medicare Part B revenues are expected to be \$24,065 or 0.71%, private pay \$1,091,045, or 32.22%, semi-private companion \$158,379 or 4.68%, managed care \$850,939 or 25.13%, and miscellaneous \$3,373 or 0.10%.

ECONOMIC FACTORS/FINANCIAL FEASIBILITY:

The Department of Health, Division of Policy, Planning, and Assessment has reviewed the Project Costs Chart, the Historical Data Chart, and the Projected Data Chart to determine they are mathematically accurate and the projections are based on the applicant's anticipated level of utilization. The location of these charts may be found in the following specific locations in the Certificate of Need Application or the Supplemental material:

Project Costs Chart: The Project Costs Chart is located in the application on page 114. The total project cost is \$29,241,697.

Historical Data Chart: There is no Historical Data Chart due to this being a new proposed facility.

Projected Data Chart: The Projected Data Chart is located in the application on page 125. The applicant projects 8,729 (26.57% occupancy) and 25,815 (78.58% occupancy) patient days in years one and two, respectively. The total net operating revenue in year one is projected to be (\$2,128,498) and \$101,281 in year two of the project. The applicant projected a third year showing occupancy of 95.2% and net operating revenue of \$994,459.

The average year one gross charge is \$541.05, with an average deduction of \$153.13, resulting in an average net charge of \$387.92

The average year two gross charge is \$564.82, with an average deduction of \$165.44, resulting in an average net charge of \$399.32

The average year three gross charge is \$590.00, with an average deduction of \$176.41, resulting in an average net charge of \$413.59.

The applicant's proposed charges in year one are \$279.90 for private/private pay, \$263.50 for semi-private/private pay, \$271.70 for semi-private/companion, \$494.34 for Medicare, and \$470.79 for managed care.. The applicant's proposed charges in year two are \$292.49 for private/private pay, \$275.36 for semi-private/private pay, \$283.93 for semi-private/companion, \$504.23 for Medicare, and \$480.21 for managed care.

The applicant decided not to build at the current location due to the cost differences, and the additional fact they found a superior site at a location closer to the service area of several large hospital campuses, which makes their nursing home services available to a broader number of patients across the city.

CONTRIBUTION TO THE ORDERLY DEVELOPMENT OF HEALTHCARE:

The Health Center of Hermitage will have transfer agreements between all relevant health care providers in the community and provides a listing of these on pages 42 of the application.

Contractual relationships will be made with a medical director, dietary consultant, physical therapist, medical record consultant, and therapists for treatments such as oxygen therapy. A licensed pharmacist will be a member of the pharmacy committee, and a local pharmacy will be awarded a contract to supply medications for the patients. Contractual relationships are established with local dentists, optometrists, gerontologists and other specialists physicians to meet the needs of the patients.

The applicant provides linkages with other Davidson County providers such as home health agencies, hospice, meals on wheels, etc. on pages 43 and 44 of the application.

This project will serve as a needed relocation of services to residents of Davidson County and will not have negative effects on the health care system by duplication or competition.

The applicant provides the proposed staffing for the project on page 146 of the application.

The applicant has established relationships with Middle Tennessee State University, Tennessee State University, Vanderbilt University, Belmont University, University of Tennessee, Aquinas College, Fisk University, Nashville Area Technical Community College, CNT School, Nashville Area Technical School, and Tennessee State Vocational College.

The Health Center of Hermitage intends to be licensed by the Tennessee Department of Health, Board for Licensing Healthcare Facilities.

SPECIFIC CRITERIA FOR CERTIFICATE OF NEED

The applicant responded to all relevant specific criteria for Certificate of Need as set forth in the document *Tennessee's State Health Plan*.

**CONSTRUCTION, RENOVATION, EXPANSION, AND REPLACEMENT
OF
HEALTH CARE INSTITUTIONS**

1. Any project that includes the addition of beds, services, or medical equipment will be reviewed under the standards for those specific activities.

This project requests both the relocation of 90 beds approved under CN1306-22A.

2. For relocation or replacement of an existing licensed health care institution:
 - a. The applicant should provide plans which include costs for both renovation and relocation, demonstrating the strengths and weaknesses of each alternative.

The applicant is requesting approval for the change of site for the following reasons.

- *Location--The new proposed site is located along Central Pike, a 2 minute as opposed to 9 minutes from the Bell Road site.*
 - *Engineering--The Bell Road site has been determined to offer significant engineering challenges. The site is situated approximately 40-50 feet above Bell Road and would require a 600 foot driveway with a 7% grade. Additionally, the original site on Bell Road would require substantial grading which engineering studies indicate having to blast 100,000 cubic yards of rock and haul off 75,000 cubic yards. Blasting and haul off would add \$856,000 to the budget. The Bell Road site would also require substantial retaining walls adding another \$545,000. All in all, the Bell Road site would add another \$1,000,000 to the projects final cost.*
 - *Price--The proposed Central Pike site I also less expensive than the Bell Road original site. The new contract purchase site is \$78,571/ac compared to \$150,000/ac for the Bell Road site. This site will result in \$220,000 savings.*
- b. The applicant should demonstrate that there is an acceptable existing or projected future demand for the proposed project.

The facility is projected to open in 2017. If present legislation remains in place, as it has over the last several years, no new nursing homes will be constructed in Tennessee outside of the 125 bed pool or replacement of existing facilities. Population projections for Davidson County show the continued growth of the age groups who use long term care services. In addition, referral sources who seek admission to long term care centers for their patients can and have attested to the fact that the Health Care Center of Hermitage is needed to continue an adequate level and balance of continuity of care in Davidson County.

3. For renovation or expansions of an existing licensed health care institution:
 - a. The applicant should demonstrate that there is an acceptable existing demand for the proposed project.
 - b. The applicant should demonstrate that the existing physical plant's condition warrants major renovation or expansion.

The above criterion is not applicable to this project.
